Today was clean & nice. Really a bit too warm for me this afternoon. Temperatures were low 46° high 68°. I got up this morning at 6 a.m. I ate breakfast & then took a short trip east of town & through Ashland Cemetery. At 9 a.m. Pearl & I went in our car and Larry, Marretta, Chad and Ragen in their car and we drove directly to Squaw Creek. Larry & Mert are working with a group of cub scouts and they wanted me to go with them to overlook the area at Squaw Creek because they are taking the scouts there two ~~ago~~ weeks from yesterday. We did a lot of walking today, much of it in the Bluffs overlooking the Refuge. I would estimate I walked 4 1/2 miles. Lois came up just after we had finished eating. They all went home about 2 P.M. leaving just Larry and I there. We stayed until about 5 P.M.

While there we met up with Leo + Ruth Galloway, Si + Monga Rositzky, Mark Robbins, Drew Thate, Tim and Katie Barksdale. Tim is working at the Refuge now, working with the Massasagwa Rattlesnakes.

Today was clear and real nice. The temperatures were low 42° high 69°. I got up at 6 A.M. We ate breakfast & then took off for a days birding. We left home shortly after 7 A.M. we drove east of town, then up to Honey Creek & from there up the River Road to Square Creek. We got back home at 4 P.M. we worked out in our back yard for awhile and then I drove to Ashland Cemetery where I took a walk through the Cemetery.

Today was clear & cool & real nice. The temperatures were low 33° high 58°. We got up at 5:30 a.m. I took a ride out east of town and then at 9:30 a.m. Pearl & I in our car headed for Squaw Creek with four other cars containing fourteen cub scouts and nine adults not counting Pearl or I. We spent our time with them untill 2:30 P.M. when they had to head for home and then Pearl & I made another round. I / I could have birded on my own all that time I believe that I would have had at least 80 species. During the day I did see a rabbit, several squirrels, 15 deer, a Raccoon and a couple muskrats. We drove 102 miles.

Today was partly cloudy, windy & cool. Temperatures were low 44° high 56°. Today is our first day of daylight savings time this year. Pearl & I birded 8 a.m. till 1 P.M. I stayed home the rest of the day. I am certainly missing a lot of birds this month. I guess I'll get them in May.

Today was clear and very windy and hot. Temperatures were low 54° high 79°. I got up 6:30 a.m. after breakfast I drove to Ashland Cemetery where I took a mile walk, then came back by way of Blvd. & stopped there where I took about a mile walk in the hills of N.W. Blvd. I then came home and at 9:45 a.m. Pearl & I headed for Squaw Creek. We got just about ten miles from home on K. Highway when the timing gear went out of my car. I walked about a mile before I found a house where someone was home & I called home. I got in touch with Lois. Larry & Mike Redden were working on Mike's pick up at our house so they came up in Larry's pick up. Lois also drove up.

Larry is the one who found out right away that it was the timing gear. Lois then went back to Amazonia where she got to a phone & called ~~Triple~~ Triple A. About half an hour later a tow truck came and I had him tow it to ~~Casey~~ Casey Meyers Ford in St. Joe. In four years this is the first time I have had to call Triple A. I stayed home all the rest of the day.

114	Lark Sparrow	1	near Big Lake
115	Field Sparrow	4	HC
↑ 116	Red winged Blackbird	150	most everywhere

Today was clear, warm and nice. The temperatures were low 37° high 67°. I birded up in the hills in back of our house from (NW. Blvd) 7:15 AM until 9:30 AM. Then Beare & I took off from home drove out east of town, then up to Honey Creek, from there up River (Missouri) Road to Forest City, from there to Big Lake where we ate a late lunch and then over to Squaw Creek. We saw Delicia Bant there. She had seen the Cinnamon teal & steered us to it. We ate supper in Mound ~~the~~ City and then after dark came home by way of the River Road for the Chuck-wills widow & whip poor will. Today I saw Squirrels, Rabbits, Deer, Fox, Muskrat and Franklins Ground Squirrel. I am really surprised that I wound up with 116 species I would not have been surprised if I had not even seen 100 species. I missed several common species.
