19 Snow (blue) Goose		a.h. X

Today was clear and very warm for this date. The temperatures were low 41° high 77°. I got up this morning and if I stood up I became sick. If I laid down I felt better. I was really sore from my fall yesterday afternoon and I felt very tired. I could have gone to work feeling sore and tired but not sick. So I did not go to work today.

Wednesday, March 9, 1977

22	Black eyed Junco	1	0
23	Song Sparrow	1	0

Today was another beautiful day. Temperatures were low 41° high 72°. I felt as good as ever today so I went back to work. This evening after supper Pearl & I

left home at 5:30 P.M. & headed for Honey Creek. We arrive there at 6 P.M. Stayed for an hour, left at 7:00 P.M. & arrived back home at 7:30 P.M. I had hoped to get Turkey, Turkey Vulture, Screech Owl or Field Sparrow. I didn't get any of the four but it was very pleasant. With my tape recorder I did call a Barred Owl into a limb just over my head. Tape recorders for calling in birds is relative new but already I am beginning to believe that it may turn out to be bad for the birds. It keeps them stirred up when they should be left alone.

Thursday, March 10, 1977

1	Rock Dove	3	o

Today was cloudy + real damp all day with light rain most of the day. The temperatures were low 43° high 48°. I worked until noon with Bette + Art. After dinner Pearl and I took a drive down around Lake Contrary, back home by way of east of town and then later a drive through Ashland Cemetery. I went to the Shopping Center this evening and bought a western style denim jacket and two pairs of denim jeans. I sure hope that tomorrow is fairly nice because I am hoping to make a complete day of birding at Trimble and at Squaw Creek.

Today was cloudy, windy and chilly most of the day. It fairied up later this afternoon. Most dirt roads were pretty soft due to our rain yesterday. Temperatures were low 39° high 54°. Pearl and I took off this morning at 7:45 a.m. and drove to the Trimble Wildlife area. Some of the roads there were muddy. The wind was cold. We left there and came back through St. Joe and on up to Squaw Creek. We stopped at a roadside park near Honey Creek long enough to eat our lunch. We stayed at Squaw Creek until 6 P.M. & arrived back home at 6:45 P.M. We were out exactly eleven hours. Today was the earliest in the year that I have ever seen 15 species of ducks in one day. My previous earliest date was on March 14th. This was also the earliest that I have seen all three Mergansers on the same day. Today we missed the Red head duck, Canvasback and Bufflehead that we saw at Trimble last Sunday. We drove 196 miles today.

Monday March 14/1977

1 American Kestrel	1		0
2 Killdeer	1		0
3 Rock Dove	4	X	- 0
4 Downy Woodpecker	1	X	
5 Common Crow	3	X

Today was clear and nice all day. It was cool this morning. Temperatures were low 31° high 55°. I slept until 7 AM.

After breakfast I took a walk through Ashland Cemetery and then about 10 A.M. I took a drive down around Lake Contrary and out to Pony Express Lake and back home.

My right arm has hurt me a lot today and it is hard to do anything, if I even have to use my right arm. I don't know if it is a result of my fall at the Wholesale on March 7th. or not.

Monday, March 21, 1977

1	American Kestrel	1	0
2	Hairy Woodpecker	2	X
3	Common Crow	3	0
4	Blackcapped Chickadee	1	X

Today was clear, cool and nice. I felt terrible all night. I went to bed at 8 P.M. & got up at 5:15 a.m. I only slept about two or three hours all night. I did not go to work this morning. I had an appointment at 8:45 a.m. The doctor says that I have an acute case of Bursitis. The doctor thinks that my fall two weeks ago activated it. I stayed home all day, in bed a good part of the time. I am taking pills of a prescription and hot wet towels on my shoulder. Temperatures were low 34° high 61°.

Today cloudy all day. I left home at 8 am with Dual Lawhon and drove to Squaw Creek. We left there at noon and headed back home. It never did rain on us at the refuge but it rained pretty good at home. I was supposed to go to the refuge this afternoon ~~at~~ with Si Rositzky. He backed down at the last minute because of the weather. Pearl and I then spent a good part of the afternoon

birding east of town in the vicinity of the 102 River and back through Ashland Cemetery. After we got home we worked about two hours in our back yard. Temperatures today were low 58° high about 65°

Monday, March 28, 1977

Today was mostly clear and windy. We had frost and light freeze early this morning. The temperatures were low 30° high 49°.

Beard and I got up at 4 a.m. I ate breakfast and got my ~~bird~~ bird watching gear together and then at 5 a.m. Les Galloway came by and he and I left home & headed south to the "Marais des Cygnes" waterfowl management area just across the state line in Kansas about 65 miles south of Kansas City. It was 118 miles to our first stop from my home. We met a group of Kansas City bird watchers there. Dr. McHugh led the group. Dr. Phillip Kaul was also with them. He was the one who called on me so much at St. Luke's hospital last fall. This area is really only a short distance in a direct line from the Shell Osage Wildlife area.

Today was clear, hot and windy. Temperatures were low 56° high 88°. I worked today until noon with Betty + Dave Freeman.

After dinner Pearl + I took a drive down around the lakes southwest of town and through a part of the Bluff Woods State Forest. Birding was terrible, a strong wind was probably the main reason. It was hot and dusty so Pearl and I came home at 3 P.M. where I stay the rest of the day. Joel Lawton was up this evening + showed me some slides. He is getting better all the time.

Today was mostly clear, very windy and warm (hot). The temperatures were low 62° high 78°. Pearl and I started out this morning at 7:40 a.m. We birded until a bit after 11 a.m. - just in Ashland Cemetery, out east of town and along the Angonia Road. Then at 1:30 P.M. Si + Monga Kositzky came by and I went with them to Honey Creek and on up to Squaw Creek. We left Squaw Creek & headed home at 6:45 P.M. I got home at 7:30 P.M. I had hoped for 70 species today but I believe that this was the windiest day I have ever birded. Considering everything my 61 species was good.

Monday April 11, 1977

Today was mostly clear + humid. The temperatures were low 60° high 81°. I worked until noon today with Phil Montemayor. After lunch Pearl + I took a ride over to Browning Lake at the Airport and then down by Lake Contrary, Mud Lake and Bluff Woods State Forest. We then came by a nursery + bought some Cabbage and Peppers. Our Red bud sprout that we had planted has started leafing out and this evening we noticed that our Nogwood is now also leafing out. We were beginning to think it was dead.

Today was cloudy about half of the day. Temperatures were low 62° high 78°. It was nice today. Not much too hot and a decent breeze. Pearl & I packed our lunch and left home at 7:20 A.M. and got back home at 6:30 P.M. We bided from home through Krug Park, I took my walk in Ashland Cemetery, drove out east of town, then Honey Creek & finally at Squaw Creek. There is still very little water at Squaw Creek. Not enough for many of the water birds.
