

Lincoln, Nebr., Dec. 11th, 1913.

Mr. Harry L. George,
St. Joseph, Mo.,

Dear sir:-

In looking through some of my papers I find the attached letter from Oliver La Mere of Winnebago, Nebr., he being a full blooded Winnebago Indian, or as near full blooded as there are, in reference to an inquiry I made to him about the Winnebago war bundle, and I thought that portion of it pertaining to the bundle would be of interest to you in connection with the bundle.

In reference to the offer I made you several days ago, I might mention that I will make you a reduction of 2% for cash on the articles.

In this connection I want to ask if you can use my prehistoric pottery, I have four good pieces of the red ware from Arizona and one piece from Arkansas, all prehistoric and not modern, collected by Fewkes of the Smithsonian Institution and has the Museum numbers on each piece, collected from old ruins. The red ware is decorated with black painted geometrical designs, there are three food bowls of red, one olla of white and one olla or vase of black, I will take \$3.00 a piece for three of them and \$2.50 for the other two, net. This is order to close them out as I wish to dispose of all my pieces. I also have three frames of mounted arrow heads of flint, jasper, agate etc. etc. from $\frac{1}{2}$ inch to six inches in length, about three hundred in the collection and mostly select pieces, some of them jems, will take \$15.00 for the entire collection of them.

Hoping to hear from you soon, I am,

Very truly yours,

W. H. Thompson

A dealer has made me an offer on one of my old medicine rattles with hair locks on it, but before saying that he can have it, I wanted to give you an option on it, so I am forwarding it by parcel post today, and please let me know soon if you want it. It is a rare old piece and has humane hair on it. In fact I am holding every thing for you to give you an option on before letting them go. But this party had made me an offer on the rattle and I thought best to let you see it before letting him have it, and I will have to let him know at once. Price of this rattle is \$8.50.
