This was a lousy day for birding. Larry + I left home at 6:40 AM for Honey Creek. It was still dark when we got there. The frost is rapidly going out of the ground so it was muddy everywhere including the roads. We stayed only about 2 hours. Pearl + I took a short ride east of town. It was foggy all day with a fine misty rain. Temperatures low 34° high 59°

He died at 7:26 a.m. Alice had already called the Wholesale so I turned around and came back home. I will always think of him when I take my Saturday afternoon bird drive because that is when she went with me most often. He loved the out of doors, especially the country. He loved everyone, had many friends and no enemies. He had a wealth of knowledge of the out of doors and the ways of nature. He would have been a wonderful farmer. He loved to see things grow. He quite often mentioned things to me about birds that even I didn't know such as some of their habits. He was 77 yrs of age. He had 4 children 12 grand children and 8 Great grand children.
