Friday

After a heavy snow (7 inches) on ~~Saturday~~
 Feb. 23rd we woke up Saturday morning with
 a new winter snow fall record. Previously
 our largest winter snow fall record was 39 in.
 and as of now we have 141.7 inches and still
 a bout two months to go.

This morning at 6:40 A.M. Pearl and I headed for the home of Alan and Elizabeth Cole at Lake Quivira. We arrived there at 9 A.M. and spent the day until 3:25 P.M. with the Coles and Jim and Mary Louise Myers. We looked in vain for a Clarke's Nutcracker which has been staying near a farm home near Bonner Springs, Kans. We were lucky enough though to see the Evening Grosbeaks at the home of the Harold Kings at 1704 Kentucky St. in Lawrence, Kans. Jim and Mary Louise Myers are the care takers of Camp

Towanyah at Lake Quivira. The Coles
also live at Lake Quivira. We arrived
back home at about 5:25 PM.

In open ground the snow is completely gone now but in a few isolated protected spots there is still a bit of snow yet that has been here since Dec. 9th. Knap Pash Lagoon and Corby Pond is still about 30% frozen over. High today about 50.

Yesterday I was overjoyed to see the female Oldsquaw duck and today I was happy to be able to show it to Ribbard & Larry. Actually Larry was first to see it today. We fished about 30 minutes but was too windy. At K.P. Larry and I saw our first snake (Racer) and first frogs of the season. Just a day or two ago I saw my last of the snow.

Today Pearl saw something that few of us see. While looking out our back window she saw two Rabbits ^{step} in the middle of our back yard and one of them dug a hole & then lined it with fur from her body and then give birth to her baby rabbits.

This morning Larry + I birded with the Kansas City Burroughs Club 8am. until 11:30 a.m. at the Trimble Wildlife Management Area. I put up four Bluebird houses over at Alice's about a month ago and now only one is being used but it has six Bluebird eggs in it. Today was clear but cool about 25° to 50°.

I went to Church this morning (Easter Sunday) so I didn't get to do any birding until 1 P.M. or I think I would have had at least 100 species. I birded 1 P.M. till 8 P.M. with Bob Brown & Simon Rositzky here to Squaw Creek. Harold Burgess joined us at Squaw Creek about 4 P.M. & stayed with us until dark. It was mostly clear & cool. Temp. about 60°. One biggest surprise was the Black-necked Stilt. I was the first to see it. Bob Brown & Harold Burgess got some pictures of it.

I drove out the Mitchell Avenue Road today as far as highway 36 on my lunch hour. Actually one hour and 10 minutes. If I could only cover one area for one hour each day then I believe that I would pick up a few birds that I don't always get.

This evening my family + I drove to my sister-in-law, Alice Jackson's home about 6 miles south of town in the hills. Of the four Bluebird houses I put up, two of them have nesting Bluebirds in them. One of them already with young. After dark we drove on into the hills about a mile south yet of their place in hopes of hearing a whip-poor-will. Much to my surprise the first bird I heard was a Chuck-wills-Widow. We heard about 5 Whip-poor-wills. Also saw a coyote cub.

I birded today 5:30 a.m. to 9 a.m. at Krug Park, 9:30 a.m. till 12 Noon on Mitchell Ave. Road near 102 River, then leisurely along River Road through Amazonia, Nodaway, Forbes & Forest City and on into Squaw Creek. Bob Brown & Simon Rositzky were together all that time. Harold Burgess joined us then. He took us into a private hunting area near Bigelow, Mo., about 5 miles west of Squaw Creek. It was mostly cloudy all day & a bit windy, for warbler birding this a.m. The visibility at that time wasn't so good. We wound up leaving the Refuge at 8 P.M. We ate supper at Forest City & got home about 9:30. The Snowy Plover was, I believe a new record for Northwest Missouri.

The weather has been exceptionally hot and dry for this time of the year. Due to heavy snows in January & February St. Joseph was above normal at the end of March for moisture but April and May have been so hot & dry we are now over 3 inches of moisture below normal. For the past two or three weeks the temperatures have been in the upper 80's and lower 90's.

I didn't do any birding until 1:30 P.M. Larry & I then left for Square Creek and the Bigelow mud flats. If I could have fished at K.P. till now when I think I could have made about

100 species. They had only a small rain in the Swan Creek area so we didn't have any trouble getting around. It was partly cloudy with temperatures in the mid 80's + a bit windy.

Today, a beautiful day being decoration day we spent the morning putting flowers on graves at Mt Auburn Cemetery Memorial Park Cemetery and the Cemetery at Frazier Mo. This afternoon Larry and I spent about two hours in the timber along the Northwest boulevard system. Today was clear & warm, low about 70° high about 90°

Thursday, May 31, 1962.
