Today was cloudy ~~and~~ all day. Pearl and I went to church this morning. This afternoon Pearl was to baby sit with our grandson Chad Michael Lawhorn so we took him on his first bird trip (he is only 7 1/2 months old). Weather was very threatening when we left home. About the time we hit the Mud Lake - Horseshoe Lake area it was raining so hard and the visibility was so poor we could see practically nothing so we came home. Later in the evening Pearl & I went to the Airport alone. Temperatures were low about 41° high about 56°.

Today was cloudy and chilly. Right now 6:20 PM. It is snowing very lightly. Today we are presenting our film "South to Swamp and Thicket" to the St. Joseph Audubon Society. It is the movie that Richard Wolf, Ron Reynolds and I made in the Big Thicket area of Texas and along the Rio Grande. The temperatures today were low about 35° high about 45°.

Today was mostly cloudy. A 4 inch snow this morning. Rather cold. Temperatures low about 28° high about 41°, yesterday evening. Alch Anderson called Mark from St Louis and said that there was Greater Scaup, Common Scoter and Black legged Kittiwake at St. Louis. Mark would have gone if I'd have gone with him but I couldn't get away because of the Easter business rush.

Today was mostly clear, a bit windy and pretty chilly. The temperatures were low about 30° high about 37°. I had planned on going to Squaw Creek this afternoon but I found out that Si Rosityky wants to go Sunday so Pearl and I made the rounds south of town. We went to Sugar Lake near Atchison Kansas for the first time in quite awhile. Also Horseshoe Lake, Muskrat Lake, Mud Lake, Lake Contrary and Browning Lake at the Airport.

Today was mostly cloudy, windy and Chilly. The temperatures were low about 33° high about 66°. I got off work at 3:30 PM and then Mark Robbins and I headed for the Ashland Wildlife area near Columbia, Missouri. We arrived there near 7:30 PM. We were fouled up on directions looking for the Area manager. So after eating supper it was finally about 9 P.M. when we finally found the area Area managers home. He is a young fellow named Charles Shaffer. Although it was pretty cold, below freezing we slept in our sleeping bags in the back of the station wagon. I slept more comfortable than Mark did. The above temperatures are St Joseph Temperatures.

✓ = seen on Alton Lake from the Corp of Engineers grounds on the Missouri side. Today was clear and nice, though real chilly this morning. Temperatures were low about 35° high about 69°. we got up at 4:15 AM at Spencer Jones home near Jefferson City, Mo. we left right away and headed to St. Louis. We arrived at the Alton Lake area at 7 AM. We went especially to see the Black-legged Kittiwake and it was one of the first birds we found. Only one other person was there when we arrived. About 8:30 AM. Rick Anderson and a few other people showed up. They were really looking for a Surf Scoter that was seen by a few yesterday but it wasn't there this morning. Mark and I left at 9:40 AM. ate lunch at 11:30 AM. and pulled into our drive at 2:30 PM. I added two new species: Grouse + Kittiwake and Mark added three: Grouse, Woodcock + Kittiwake. I now have 310 for Missouri and Mark has 291.

Today was mostly clear, windy and warm. The temperatures were low about 48° high about 76°. Pearl + I took off this morning at 8:30 A.M. + got back home at 7 P.M. We took the highway all the way to Big Lake and then took back roads to the Brickyard Hill Wildlife Area and then back roads from there to the Squaw Creek National Wildlife Refuge. By pushing myself I probably could have had a total of about 90 species for the day.
