Today was ~~was~~ an outstanding day for birds even if the weather wasn't very co-operative! It was mostly cloudy with some light showers and strong wind late afternoon with chilly temperatures low 48° high 70°, at 9:40 A.M. Jim Jarvie called me that he had seen a bird which looked like a small owl on what we call the Lark Bunting Prairie down near Lake Contrary. He wanted me to get my telescope and look at it. Needless to say Pearl and I were there within half an hour. Sure enough it was a Burrowing Owl. I called several so before the day was over Boot & Julie saw it. Also Mark Robbins came down from Marysville at 1 P.M. & also saw it. He was one happy boy. I had made arrangements to meet a fellow at Sci Cen at about 1 P.M. from Indiana. It was 3:30 P.M. when I got there. I birded till dark then with Harold Burgess, Pearl & two men from Lafayette Ind. Duane Carmony and Mike Brattain.

Temperature
48° & 70°

LC

Today wasn't an ideal day for birding. The lack of Warblers show that, but I guess we were lucky any way to wind up with 115 species. John & Julie wound up with about 90 species and they had 7 species which I missed. Jim Fairlie also had a Snowy Egret that we missed at L.C. I birded all day from 7 AM until 9 PM. with Si Kositzky. ~~Donna~~ Morya went with us on our trip to Snow Creek. Temperatures today were low about 41° high about 64°

R. D. - birds seen in the vicinity of Rosendale, Mo. Today was partly cloudy, hot and windy. When I got home from work at 4:15 P.M. Jack Wilsabeck who is Biology teacher at the Rosendale, Mo. High School had called my home and told Pearl if I wanted to come up he might be able to show me a Hooded Warbler. It took Pearl & I just 35 minutes to get there. He and Mark Robbins were already in the woodland and had located it. I had seen the bird previously in ~~the~~ Texas but it was a new Missouri bird for me. It was a lifer for Mark & Jack. Temperatures today were low about 67° high about 83°

Today was clear and nice most all day. Late this afternoon the

wind came up and made it difficult to use the telescopes. Si Rositzky & I birded all around St Joe 7 AM until 1 PM. then I headed for Squaw Creek via Amazona Road and Honey Creek. We ate supper in Joplin City at 8:30 PM and then drove back the River Road to listen for whip poorwills & Chuck wills Widows. The temperatures today were low about 51° high about 77°.

Today was clear and hot. I was real tired today so my heart wasn't really in my birding. If I'd known I wouldn't see any more birds around the lakes this afternoon then I guess I would not have gone. Harold Burgess must have them all up at Squaw Creek. He called me about 7:30 PM. this evening & said he had seen Snowy Plover, Buff breasted Sandpiper, Black bellied & Golden plovers. I hope they are still there tomorrow afternoon. This morning in the 102 River bottoms about a mile east of town I saw a Sora Rail hanging on a fence. I couldn't tell if it had caught itself on the fence in flight or if a Shrike had put it there. Temperatures today were low about 60 high ab. 85.

Today was mostly cloudy with a few light showers this morning. Si and I bled 7 a.m. till 10 P.M. in areas in and around St. Joseph. For time spent I would rather have bled at the Pigeon Hill Wildlife area than at Bong Park. We ate lunch at Si's home and then headed for Squaw Creek by way of Honey Creek. We stayed until dark and then came down River Road listening for Chuck Wills Widow and Whip poor will. I still don't understand why we didn't hear any although we stopped about a dozen places. Temperature low 61° high 88°

Today was clear, hot and windy. The temperatures were low about 70° high about 92°. I heard today from Jim Fairlie that the Bobolinks were in now and that a couple more Burrowing Owls had been seen near our original sighting so after work Pearl and I drove down. Except for our regular owl we saw no more, nor did we see any Bobolinks.

Today was cloudy & threatening all day but no rain. Temperatures were low about 60° high ab. 70°. Muddy underfoot. Worked till noon. Pearl & I banded from home 1 P.M. to Sg Cr. & back home at 7:30 P.M. We had to go by paved roads because of muddy roads. We banded part of the time at Sg Cr. with Mark Robbins. My year's list now stands at 222 species for N.W. Missouri and Mark has 225.

Today was cloudy and rainy most of the day. I didn't get out today at noon at all. After work at 4 P.M. I took my 5 miles drive east of town & then came home. Harold Burgess had called home & told Pearl that he saw 4 Chimberl at Squaw Creek today. We drove down town first to a funeral home to see Mrs Lucy Cook who passed away yesterday. She was 78 years of age and was an old friend of the family. At 5:20 P.M. we left town & headed for Squaw Creek. Although Harold was looking from his car, Mark Robbins was hunting them from his car and Pearl & I stayed & hunted until almost dark we never did find the birds again. Of the 78 species I show today there are only 3 species of them that I did not see after getting off from work at 4 P.M. Temperatures today were low 48° high 64°
