Pearl & I left home at 6 AM and drove to Camp Rising Sun at Lake Ozark State Park. We arrived there about 11 AM. We were the only ones there at that time. We went down for our Audubon Society of Missouri State Meeting. It doesn't start until tomorrow but we drove down a day early for a little extra birding. It was cloudy most all day with a light rain a good part of the time. Pearl & I birded the rest of the day by ourselves. It was late afternoon before anyone else came in and by late evening there were less than a dozen of us there. A fellow by the name of James A. Lane from Santa Ana, California was there. He had been to the National Audubon Meeting in Atlantic City and decided to make over meeting on his way home. Temperatures in St. Joe today were low about 53° high about 56°

 Today was cloudy, damp, chilly and rainy almost all day. During last night & this AM we had a good inch of rain. I slept until 8 AM. Read & I bled a bit from 9:30 AM to 11:30 AM. Many of the roads were too muddy to drive on. This afternoon Richard Wolf who is a naturalist at the St. Joseph Museum and I went to Squaw Creek where he and I in an 18 foot Humann canoe explored some of the marshy areas until near dark. It was like being in a world of its own. I really enjoyed it. We missed many birds by not driving the dike roads but it was worth it. Temperatures low 52° high 67°

Today was clear, windy and hot for this late date. We had wind gusts up to 30 MPH over

and the temperatures were low about 50° high about 81°
 at 8 a.m. Pearl, Lois and I left for the Tuttle
 Creek Reservoir area. We went the same way I
 have gone on two previous occasions. We arrive
 there about 10:45 a.m. The wind was very bad. There
 were many ducks on the Reservoir but because
 of high waves it was hard to pick them out.
 We ate lunch, then drove down to near Manhattan, Ks.
 where we crossed the dam and headed back north
 & east toward St. Joe. We drove onto Hiway 36 at
 Seneca, Kansas. We stopped at Brown County Lake
 on our way home. It is 31.3 miles from the St.
 Joseph bridge to the Lake. This means that it should
 be only about a one hour drive from our home.

Today was a beautiful day. It was clear & warm. The temperatures were low about high about . I did very little real birding today. Today was Pearl's and my 31st wedding anniversary. Lois and Freddie Hamilton were having supper with us so we cut our birding short. I should have written before that Lois was married on October 27, 1967 to Harold Frederick Hamilton in St. Louis. Freddie is the boy that she was engaged to ^(several) many years ago. He is now in Army Air Corps.
