Paul & I started out at 8 AM at Krong Park. From there we birded along the boulevard to ~~Adland~~ Cemetery & then back home. We left home about 11 AM & birded along the Amazonia Road through the hills on up to Honey Creek Wildlife Area. From there we took the River Road to Sparrow Creek where we stayed until dark. John & ~~Julie~~ Julie Hamilton joined us there at about 5 PM. We also saw Harold Burgess. Mostly cloudy & cool. High 76° low 56°

This morning Beal, Larry, Pearls Dad and I drove out a few miles north + east of Stewartsville to a new hunting and fishing area that has been acquired by the Missouri Conservation Commission. It is about 1400 acres and has a lake of about 275 acres on it. The lake and the land around it is much like the Lake Ozarks area. So far the area has not been named and it will be about two years before the work is opened and the area will then be opened to the public. It is just about 30 miles from our home to where the headquarters will be at the dam.

Thursday, September 3, 1964

This afternoon Charles Blanchard who is the manager at the Trimble Wildlife Area called me + told me that there had been two Glossy Ibis on the area for a couple of days so at about 3:40 PM I drove down. I covered the area but was unable to find them. I did have one bird which looked black flying straight at me and dropped into the marsh about 50 yards away behind some willows. The sun was at my back and the bird definitely had white around ~~the~~ the base of the bill. Because it was head on to me all the time I couldn't tell if its bill was 1 inch or 12 inches. I waded into the area but was unable to flush the bird. I will always think that possibly it could have been a white faced Ibis.

I worked till noon. Paul + I then headed for Squaw Creek. We stayed till 5 PM when it started pouring down rain. While there I met Lee Burgess, a boy who used to go to S. A. with us a few times. He has graduated from the Wildlife Unit at the University of Massachusetts and is going to work for the U.S. Fish & Wildlife Service for awhile at Squaw Creek. Also met Peter Petersen from Newport Iowa there. It rained so hard on us coming home I could drive on the highway most of the time 30 to 40 to 50 M.P.H.

It rained all night last night. I had the alarm set for 4:30 AM & planned on leaving for SQ at about 5 AM but it was too wet. Carl & I left home at 9 AM & arrived SQ at 10 AM. I helped Peter Peterzen set up his mist nets for banding. He had poor luck & caught only a few woodland birds. Because of the heavy rains there were no mud flats and consequently no shore birds. We left the refuge at about 6 PM & got home about 7 PM. Si, Monye & Stephanie were up for a few hours.

33. Chickadee	1	South of town

Ralph & I slept till 9 a.m. this morning. The latest we have slept in years. At 10 a.m. I decided to drive to Trimble to give another try for the Ibis. The Manager Charles Blanchard drove me all over the area but we couldn't find the birds. On the way home I started in a round a bout way and the truck died on me about 20 miles south of town. I called Lois from a farm house. She stopped by Ralph & Alice on the way down and Ralph brought his pick up truck, a chain and

some tools. We worked on the touch for a while
 & it wouldn't start so Ralph pulled me
 It started within 100 yds. Then just as we
 hit the city limit I had a flat tire.

I birded this morning 7:20 am till 11:30 am with John Hamilton. We started out at Krog Park and ended at Airport. I then took a short run through Ashland Cemetery & Northwest Blvd. timber. Pearl & I then took a quick run to Lake Contrary. I have a pair of rubber lace boots that comes up to my knees - that is fine for wading in shallow marshes. I couldn't flush the Sora's but I did flush the Long-billed Marsh Wren & Sharp-tailed Sparrow. We spent the rest of the afternoon & evening over at Alices.

I had a rather bad week end, birdwise. First I didn't turn up near the birds on Saturday that I expected and secondly I expected to get to go to Sycamore Creek today but I didn't, which makes two Sundays in a row that I have missed. Yesterday was clear & rather warm, about 87° high. Today was cloudy, damp & cool all day. The only bright spot was yesterday when at a little pond in a creek along the Gonzales Road I watched Chickadees, Titmouse, Goldfinch, Kinglet, Nashville Warbler, Chat, downy woodpecker & bathing. I was most surprised to see the Chat.

Today was clear & cool & nice. Pearl & I birded 8 am till 11 am. birding at King Park. At 11 am. Lois & Lory joined us & we drove through the hills south & east of Amazonia. Birding & gathering Walnuts. We gathered about 4 bushels. This afternoon Pearl & Dad joined us and we went up on Lestr. Ryans dairy farm (400 acres) near Savannah & got about ten more bushels of walnuts. We could have gathered many more.
