Dear Sirs:

Many thanks for yours of the 29th. I would like to have a waste paper basket suitable for my office. The one I have being about worn out. I would also like to have one of the baskets made from narrow splints, as you say with a great deal of work, which would cost about \$1.50. I would also like to have one other good basket to make out the amount of the enclosed check. I would not care for any of the baskets made of wide splints and of course would not care for the clothes hamper or paper holder or any other basket that could not be added to my collection and are for domestic use. I am willing to depend entirely on your judgment and feel sure I will be pleased with what you send.

Yours very truly,

Hoping to hear from you, I remain,
