Today was mostly cloudy + chilly with very little rain.

The temperatures today were low 47° high 63°, Pearl + I left home this morning at 8:30 + got back home 2:15 P.M. We went mainly to Big Lake to look for a Reeve which Dave Easterla had seen there yesterday. I couldn't find it. Dave has seen three Ruffs or Redheads in N.W. Missouri over the past several years but I haven't been able to find a one. I have gone the very next day to look for two of Daves and have gone the next day to look for one that Sebastian Patti had seen at the Squaw Creek Refuge several years ago.

Today was cloudy, windy & cold A.M. ... Clear, windy & a bit warmer this afternoon. Temperatures were low 41° high 63°, Si Rositzky & I banded 6:30 A.M. till 11:15 A.M. at BW. and lake areas s. w. of town. Then this afternoon Pearl & I made a rather short trip to Squaw Creek & back. I'm afraid it is going to get cold tonight. On my thermometer it has dropped 9° from 53° at 8 P.M. to 44° at 9 P.M.

Today was a beautiful day. Clear & bright. Real chilly this morning but the sun warmed it up early and there was no wind. Temperatures were low 34° High 67°. Pearl & I made our morning route. We left home at 8:15 A.M. & got home at 12 Noon. Last night we covered up our tomato and pepper plants and some flowers. That is all that saved them. We had a good frost and a 30° reading on our thermometer. We also had ice on our bird bath. We had several plants, vines and trees that were burned by the frost and freeze. We even had some new leaves on our young walnut trees that froze. The new shoots on our trumpet vines were frozen.

Today was lovely chilly and rainy all day long. It was a miserable day for birding. Temperatures were low 52° high 56°. Ken Jackson picked me up at 6:45 a.m. We hit the lake areas first and going from there to Bluff Woods it began raining and from then on it has rained all day. We finally gave up and called it quits at about 11:30 a.m. We had planned on a big day for today. I was hoping for 125 or more species.

Today was clear + cool but real nice. The temperatures were low 50° high 69°, Pearl + I made our little tour this morning, after lunch Lois took Pearl to her dentist to get her teeth and I took my walk in hills along the northwest boulevard system. Later when Pearl + Lois got home Pearl + I took a 20 mile drive out M.A.R. and in Cook Road.

Today has been clear & nice all day. It was a bit chilly early A.M. & was a bit windy this afternoon but was a

good day for birding compared to what we have been having.
 Mark Robbins came by & picked me up at 8 A.M. We went first to Bluff Woods where we first walked the asphalt Trail and then we went on down and walked the regular hiking Trail. From there we went on over and by Horseshoe Lake, Muskrat Lake, Mud Lake and Lake Contrary. We then stopped by my home for about 20 minutes and then went on up to Squaw Creek, Big Lake and then back home by way of the River Road. We got home at about 6:30 P.M. I am tired, but I really enjoyed birding with Mark. Temperatures low 42° high 74°

Today has been very cloudy, dark, rainy and dreary most all day. It has rained from about 9:30 A.M. until now 7:30 P.M. & it is still raining. Not hard but a slow drizzling rain. Temperatures today were low 54° high 58°. Si Rositzky picked me up at 6:15 A.M. Steve Crawford met us here at the same time and the three of us made the tour of the lakes and the asphalt trail at Bluff Woods. It was very cloudy and we saw lots of small birds (vireos & warblers) that we were unable to identify because they were high in the trees and not singing. All we could get on most of them was a silhouette. We had planned on staying out until about noon but when it started raining hard at 9:30 A.M. it looked as if it ~~could~~ could keep up all day so we came home where I stayed the rest of the day.

 Today has been cloudy, windy, chilly with rain the entire day. Steve Crawford picked me up at 7 a.m. and we headed for Bluff Woods. Steve needs the Worm eating warbler for Missouri, so I told him that I thought I could find it for him. It rained on us lightly all the way there. Just as we arrived it began raining hard and didn't look as if it would ever stop so we came on back home. The temperatures today were low 45° high 55°
 According to the weather news on television this evening we have had over 5 inches of rain since Saturday evening.

Today was cloudy until about 10 a.m. and from then on it was a beautiful day. Pearl + I birded 8 a.m. until 12 Noon down around the lakes and along the asphalt trail in Bluff Woods. We found Les + Ruth Galloway at Bluff Woods where they were birding. Temperatures today were low 44° high 67°. The latter part of last week about Thursday I dumped my rain gauge. It had 1.6 inches of rain. This morning I dumped it again. It had 4.1 inches of rain which fell from Saturday night through last night or this morning.

Today was clear + nice, a bit windy. Temperatures were low 45° high 77°. Pearl + I left home at 7:40 am and got back home at 11:40 am. We drove down to the Smithville Lake area. The Lake has more water in it now than I have seen yet but it has a long way to go. Within about two years it is going to be a good place to bird for water birds. I stayed home then the rest of the day I worked some around our place.

Today was cloudy all day with rain coming at different times. Pearl + I made our usual morning drive. We were about half way along on our walk in Bluff Woods when it began raining. Light at first but pretty good by the time we reached shelter. Pearl had her Ponchos on but all I had was my denim jacket. I got a bit wet. Then this afternoon we took our short ride out in the Cook Road area. The Olive-sided flycatcher which I saw from my back yard was using a dead snag on the hillside back & ways from my home. I had my telescope with me so I could identify it by use of the scope. Any bird that I can identify from my home property I refer to it as a home bird because I identified it from my property, even if it is half a mile away. The flycatcher is 151 on my home list. Temperatures today were low 57° high 76°

Today was a very nice day. It was clear & warm with very little wind. The temperatures were low 56° high 82°, a bit warmer than I like. Pearl went to the dentist this morning as Lois went to work. I picked her up at 9:20 AM and we made our rounds of the lakes and Bluff Woods. We got home about 12:30 PM. We stayed home the rest of the day.

- * The Chipping sparrow we heard calling in Bluff Woods at 10 AM.
- * * The Kingfisher was sitting on a television antenna at an empty ^{house}.

Today was mostly clear, warm and humid. Temperatures were low 59° high 80°. Pearl & I made our usual rounds this morning, getting home 11:30 a.m. We stayed home the rest of the day. Pearl spent most of the afternoon mowing and I spent most of the afternoon just sitting around. For some reason I was really tired all day.

54	Chipping Sparrow	1	X
55	Field Sparrow	3	BW

Today was partly cloudy & cool, real nice. Temperatures were low 62° high 76°. I made the usual rounds this morning & stayed home all afternoon. It seems odd that I show several of the open country birds & list them at the area lakes. The reason for this is the area is so small that I list the birds as seen at the nearest lake.
