119. Lincoln Sparrow	15	everywhere

Started out 6 AM (got up at 5 AM) at Krug Park with Bob Brown & Simon Rositzky. We birded first at Krug Park, then Lake Contrary, Mud Lake, area along Mitchell Ave. Road, Honey Creek and Squaw Creek. We were back home at 7 P.M. all of us dead tired. The wind today was terrible. If the wind hadn't been so strong and had we stayed out late enough for the night birds I believe that we would have had somewhere near 140 species. Bob & Si both saw Myrtle Warbler, Rose breasted Grosbeak & Mocking bird which I missed. John & ~~Paul~~ Julie didn't start out until 2 PM but they probably also had some that we missed. For example I heard them say that they had seen a canvas back. Hoot Hamilton just now called 9:45 PM. Besides canvas back they are adding Black crowned night Heron, Hutchins Goshawk & Baird's Sand piper. It all adds to a grand Total of 126 species.

At 2 PM this afternoon I rode to Squaw Creek with John Hamilton to see the **flamingo** that had apparently come in some time during the night or early morning. Harold Burgess found it there this morning flying. He then called Si Kozitzky and the St Joseph Museum. Si tried to call me at about 11:30 AM but I was out in the hills birding, so he called Pearl. When I got back to work Pearl called me and then called J. H. and we left at about 2 PM for Squaw Creek. Don Reynolds of the Museum staff was already there taking pictures of the bird. Shortly after John + I got there Pearl, Lois + Kay Boyles came up. Later at about 4 PM. Bob Brown came up. I waited + rode back with Bob Brown as J. H. had to come home early to meet some one. Almost as surprising was the Scissor tail which flew in front of us as we were watching the flamingo. I don't know if we will ever know where the bird came from. It was unmarked and in fairly good color, looked healthy and flew well. The

bird has apparently escaped from a zoo somewhere
but the question is, where?

Partly cloudy + windy. warm at mid day cooling late afternoon. Si Rodzky + I headed for SA at 2 P.M. I drove Lois' car. Through the course of the afternoon at Squaw Creek we met + bided with Harold Burgess, John + Julie Hamilton, Leave Easterla, Rich Anderson, Joe Roler for M. V. and Andy?, a student of Easterla. There was also a father

and son from Beatrice, Nebr. They had an odd last name but the boy's first name was Kent. He was about 14 or 15 years of age and wants to make wildlife his life's work. For a boy he knows his birds pretty well.

Si picked me up at 4:50am & we headed to Squaw Creek via Amazonia road and Honey Creek. We arrived at S. Q. about 7am. Until about 10am it was cloudy, cold and damp. I got chilled and caught a terrible cold. From about 10am on it was clear & nice. We birded part of the time with Burgess, Easterday, Anderson, Roles and Andy. Our most surprising bird of the day was the Common Loon on a private hunting club lake near S. Q. Si and I got home about 7PM. I felt terrible with my cold and my eyes were burning badly, probably from eye strain.

cloudy + sticky. low about 65° high about 80° Pearl, her
 dad + I birded from till near 5 PM. I waded some
 of the marsh at Mud Lake but didn't do much good

Sunday, May 23, 1965
