John Hamilton & I birded all day today, 8 AM till 10 P.M. We started at Long Point, then onto Lake Country, Mud Lake and at Noon headed for Squaw Creek via the Amazonia Road.

At Squaw Creek we met and banded some with
 Mr & Mrs Burgess, Mr & Mrs. R. A. Brown, Mr & Mrs
 Simon Rostky & their daughter Susie. It was a
 wonderful day. Clear & cool all day. I thought I
 only had 96 species, Had I known I had 98 species
 I would have tried for Johns, resident Screech
 Owl and then Coronado for the Night hawk

Sun - June 7, 1964.

This morning it was raining so Pearl & I took a drive. We drove east on Highway 36 to State 33. Then south to State 116 at Plattsburg, west on 116 to US 169 and then on home on 169. We had planned on going on to Twin Lake and west on 116 to Sugar, Myer & Lake Contrary but it continued to rain and we had a slow leak in one of the rear tires. I was afraid of getting caught out and having a flat & our spare wasn't very good. We were gone 8 1/2 hrs till 11:20 am. I stayed home all afternoon.

I spent this evening 6:30 PM to 9 PM at the Honey Creek Wildlife Area. It is about 20 miles north west of my home. Birdwise it has good possibilities for woodland birds. Larry, Red Klein and Tom Jeffery is spending three days + two nights there on a camping + fishing trip so I drove up + ate supper with them this PM.

Pearl saw two Cedar waxwings here at home yesterday eating Chesnuts. Larry had been at Kansas University Medical Center since Thursday A.M. undergoing some tests. He has not been real well since he had hepatitis about 14 months ago. I went down last evening with Lois and today at noon Pearl & I went down. It is in Kansas City, Kansas. It is 62 miles and takes us about one hour & 15 minutes to drive it.

Sunday, June 14/1964

I had planned on making the rounds at Krug Park or Honey Creek this morning and Squaw Creek this afternoon. But it rained most of the morning so I stayed home the A.M. Pearl and Lois went to K.U. Medical Center to visit Larry. at 12:30 Noon R.A. Brown, Simon Rositzky and Roy E. Coy came by & picked me up & we headed directly for S.O.

We birded about noon until about 9:30 PM. Our female Lark Bunting we saw first on a fence about a mile east of Amazonia in pasture upland. I got a good look at it from about 25 feet away through 10X glasses. It had the streaked breast, white above the eye and back of the lower mandible. It plainly showed the same amount of white in each wing on the two times that we flushed it. Our Swainson's hawks were all seen in one loose group along the River Bluffs north of Forbes, Mo.

Day before yesterday morning Pearls dad found deer tracks in our garden. Our whole yard is completely enclosed. The tracks were far apart as if the deer had been running. We suspect that dogs were probably chasing it, and the deer probably jumped over our front fence and ran through the garden and then jumped over back fence.

It was so hot + humid today I didn't feel like doing much of anything. I took about a 90 minute ride with Pearl over what I call my complete Amazonia road trip from here to Amazonia through the hills + uplands and from Amazonia back home through the river bottoms. John Hamilton keeps his birds listed separately either as A.H. Amazonia lights or A.B. Amazonia Bottoms

~~37.~~ Between 11PM last night and 5AM this morning we had a six inch rain here in our area. It was more water than the sewer could carry so it overflowed and flooded the lower areas of Buopside Ave. It didn't get near our house but our stool in the basement overflowed and we had about 3 inches of water in the basement. I was really tired so I took the drive to Amazonia, then on to Savannah & then on home. Also drove to Alice's & back. The forecast for tonight is for more of the same.

* on the southern edge of Squaw Creek along the roadway there is a colony of Bank Swallows nesting in the side of a hill that is shaved off perpendicular, & estimated 150 holes. Later we saw Burgess and he said that he had counted 172 holes. It would be hard to be sure of an accurate count. Pearl & I started birding 8 a.m. we drove through the park, then down Huntoon Road, on to Lake Contrary & Mud Lake, then out Mitchell Avenue road & back to town. I took half an hour walk in N.W. bud. timber. About 1 PM I birded with Roitzky, Brown & Coy here to Squaw Creek & back. We arrived back home about 9:30 PM. It was clear, hot & sultry all day.

Pearl's Uncle Sam Stevens of Kansas City died on June 29th. I was one of the pall bearers. So I drove down today taking Pearl, Larry and Pearl's mom + dad with us. He was buried in the Pleasant Hill Cemetery. We come back home from P. H. without going back through Kansas City.

Friday, July 3, 1964.
