Today was cloudy & rainy all morning till about 1 PM. Clear, sultry & warm then. I took my short drive east of the whse about noon, took a short walk in Kring Park about 2:30 PM. Pearl & I then drove due north to Savannah, Mo, then west & south to Amazonia and then back home. All on hard surface road. Floor about 63° high about 85°

Today was clear & very humid until 5 PM. I didn't

bird until 9 AM when I made the tour near W. by myself. Larry was leaving St Joe at 10:30 AM. For Camp Carroll Colorado for a Summer R.O.T.C. camp. He will be gone two weeks. Basil & I then took a short ride through the Amazonia Heights at 1 PM. I left for S.G. via Honey Creek with Rusty and Basil. A rain storm came up so we headed for home at 5 PM. Low about 70 high about 92°.

Today was mostly cloudy with a little rain. The temperatures were low about 67° high about 78°. Tonight's paper says that in St. Joseph we have 8:35 inches of rain so far for June. Many days it pushed me to make it but the month just passed is the first one in the history of my bird watching that I have gone for a complete month with seeing a minimum of 40 species of birds in <sup>each</sup> day.

Today was clear + nice overhead. The temperatures were low about 70° high about 88°. There were some places we couldn't go because of heavy rains and high water about 24 hours earlier. We saw fewer birds, other than swallows, at Squaw Creek than I can ever remember seeing when making the complete tour. Heavy rains had raised all of the pools full almost to capacity. We missed most all of the birds that we had been seeing.

To day was mostly clear + hot + humid. Today was our family reunion on my side of the family. We met at Nosmers house at 3PM & we came home about 9PM. We all had a wonderful time. There were six of us brothers, two sisters and most of our families.

This was another hot and humid day. In hot weather I don't really want to do anything except to complain about the heat or try to find a cooler spot. I spent the afternoon watching baseball on television. Temperatures were low about 72° high about 92°.

KP - new Wke

Today has been cloudy & rainy nearly all day. The only birding I did was about two hours this afternoon when I went out with Si Rositzky to help a boy scout get his merit badge on birding. The boy's name was Conrad Gebhart. He was about 12 years of age.

We had heavy rains again during the night and Blacksnake Creek + sewer overflowed again. We had about 3 feet of water skimming down the center of the street in front of our house. We had 10 inches of floodwater in our basement that came up through our basement fixtures. We were up about all night.

Today was clear & nice, Larry and I drove to Squaw Creek this afternoon in the Jeep. We made it all the way there without any trouble but it began to act up on the way home. We made it back OK but I was worried a time or two.

Today was clear & nice. I birded just a little near where & where till noon and then at 1 PM I went to Squaw Creek with Si Rositzky & two 7th grade boys who are working on their merit badge in scouting. They were Conrad Gerhard and Jim McDaniel. The <sup>water</sup> was is still a little too high at Squaw Creek for good birding. Starting with the next issue of the "Museum Graphic", a magazine published quarterly I will have an article on bird watching in it.

| 30. L. Phoebe              | 10  | near whse      |

To day was clear + nice. I didn't do any birding except for my short drive near whse. I worked pretty much this week by myself and that is why my birding suffered.

Today was a beautiful day. Pearl & I  
 packed a lunch & left home at 8:40 AM and  
 expected to make a pretty holy day of it. We  
 birded near home first, then went to Honey  
 Creek and then to Squaw Creek where we  
 planned on staying until dark about 2 PM  
 we found a leak in the heater hose and  
 was losing water so we headed for home.
