Today was clear, windy and Chilly. The temperatures were low about 31° high about 57°. I left home at 6 AM and headed for *Magnolia, Mo where Mark Robbins and I spent a part of the morning birding the water areas around there. We then headed for (B. H.) Brickyard Hill Wildlife Area near Rockport, Mo. We went there to look for Wild Turkey but we didn't see any. From there to Squaw Creek where we made the rounds. Yes today Mark saw a Whistling Swam there and the day before some one saw two Sandhill Cranes. Today we missed all the way around. I finally got back home at 4:30 PM.

Today was clear and real nice. A beautiful day for birding but because Pearl's mom is in the hospital and so bad I decided to stay near home. As it turned out I hadn't been gone for the lake only a few minutes when they called for her to come to the hospital. She is now developing double pneumonia and they (the doctors) have told Pearl and Alice that it is only a matter of time for her. I came home from the hospital at 12:15 PM. Pearl and Alice are staying all night. The temperatures today were low 43° high 68°

Today was partly cloudy + cool but nice. Temperatures were low about 38° high about 60°. Pearl didn't feel like going out this afternoon so I went by myself. I was back home at 4 P.M. I would have stayed out longer if Pearl had been with me but she wasn't feeling well so I thought that I should get back home early.

Today was clear and nice. I was so tired about noon I just came home for an hour and lay down and slept. I don't feel bad in any way at all except that I am so terribly tired all the time. The Sandhill Cranes are what took me to Sevan Creek this evening. Harold Burgess called me at home last evening and told me they were there. Although several people were looking for them this evening, I was the only one to see them.

Temperatures
Low 44°
High 81°

Today was clear and nice. The temperatures were low about 42° high about 66°. I bided my noon hour at Krug Park and this evening down around Lake Contrary. This was one of those days that I would have wanted to bird all day. My reason for birding at Lake Contrary this evening was a report by James Fairlie that yesterday he had seen a **Black Rail & Osprey** at the Lake. According to Jim he was within about 10 to 20 feet of the rail and watched it as it fed about among the reeds and grasses at the water's edge.
