

Sunday, November ¹³ 1966

38. Red wing Blackbird	20,000	SA
39. Rusty Blackbird	500	SA - Big Lake
40. Brewers Blackbird	50	Hiway 59
41. Common Grackle	5,000	everywhere
42. Brown headed Cowbird	750	SA
43. Cardinal	25	everywhere
44. Slate colored Junco	30	AR
45. Tree Sparrow	4	AR

Today was clear and nice. The temperatures were low about 28° high about 65°. Pearl + I left home at 7:15 am. We drove through the hills to Amazonia, then up Hiway 59 to Squaw Creek. The area is all locked up now that hunting season is open but we drove around it, to Big Lake. We spent most of our time at Big Lake. There we saw Sam and Ethel Hower of Savannah. They took us in to see their cottage on the lake. They are partially retired and spend a good part of their time there. I sure wish that I could do the same. We got home at noon. I stayed home the rest of the day watching football on television. Yesterday was opening day for the deer hunting season in Missouri with a total kill of 5975 deer for the State.

Monday, November 14, 1966

1. Killdeer	1	near where
2. Common Snipe	1	near where
3. Rock Plover	6	near where
4. Y.S. Flicker	3	Nw. brd

16. Slate colored Junco 50 AP-near whse.

Today was cloudy, rainy & icy today so I didn't do much birding. This AM early the streets were covered with a sheet of ice. Temperatures low about 27° high about 38° . This A.M. Pearl & I saw a bird in flight that I don't know what it was. It was about the size of a Snow or Blue Goose but had the fast wing beat of a duck. It had a white ring around its neck, was all black or real dark except for white triangle on the fore edge of the wings. I suspect that it was probably a Muscovy Duck. If it was, it was a very strong flying bird.

Monday, December 5, 1966

1. Sparrow Hawk	1	near whse
2. Killdeer	1	near whse

40. Red Breasted Nuthatch	1	KP

I birded this morning 8:30 to 10am by myself
at KP + A.C. Then at 10am Pearl, Lois
(over)

and I headed north west. We drove through the hills to Marion, from there through Madawaski to Honey Creek, from there on back roads to Big Lake, then around to Sugar Creek. S. Q. is still closed up so we didn't get to go on the Refuge. The eagles we saw were about 18 to 30 % adults. We got home at 3:30 PM. Paul & I then drove out east of town near the Whse. Today was clear & cold Low abt. 2° high abt. 34°

29. White, Crowned Sparrow	2	MAR
30. Song Sparrow	1	MAR

Today was clear & cold. Low 8° high about 32° . I have a terrible cold today, but because I am to take the Xmas census tomorrow I tried to cover a part of the area today just to get a picture of what to look for. Before noon Pearl & I drove down Huntington Road up on Wyeth Hill overlooking the Mr. Kinney's but Mitchell Ave. Road, roads east of town marked near Wise & roads marked Amazonia road. This afternoon Lois took her grandad Jennings for a ride north & north west of town so Pearl & I went along for the ride.

Monday, December 26, 1966

The following is mine and Pearl's part of our St. Joseph Xmas Count. We birded 7:30 AM to 5:30 PM. Left home 7:30 AM. East on Karnes to Hy. 71, North on Hy. 71 to County Line Rd., west on County Line Rd. to old Savannah road, north on old Savannah Road to Stop 19, west from there through the hills to Amazonia, out of Amazonia west & south through the bottoms, out of the bottoms & over the Gore road thru a valley to Old Savannah Road, down old Savannah road to County Line road, east on County Line road to Miller Road, south on Miller Road to Lovers Lane, east on Lovers Lane to Ashland Ave, south on Ashland Ave to Ashland Cemetery. Arrived at Ashland Cemetery 12:30 PM & spent

30 minutes there, from Ashland cemetery we drove to Belt Hy. Down belt to Harmon St. East on Harmon to end of road, north to Hy. 6 at Colony House. North from there to Gene Field road, West on Gene field to X road north across Bell road on Woodbine to County Line road, east on County line road to where we had to turn right to go to Bell Road, East on Bell Road to 102 River. Walked there awhile & then back west on Bell road to home. Arr. home 12:40 PM. Spent 30 minutes for lunch & then at 1:10 PM Lois drove Pearl & I to Kong Pash & dumped us out. we bided there till 4:30 PM. John & P Pearl & I walked to NW. bud. where we spent one hour. We heard a bird there calling at the same time that two horned Owls were calling and the sounds were almost identical to Petersons record of the Barn Owl. Pearl & I both feel that it was the Barn Owl but we are afraid to list. Clear all day till about 2 PM then overcast. Wind North all day about 2-8 mph. Ground & all water areas frozen over with bright snow covering. On top of that I have had a worse cold today than I have had for years. I might have worked a little harder had I felt better. John & Julie Hamilton and Hugh Sprague also covered other areas. I will list our combined lists a page or two later.

1. Snow Goose	350	AR
2. Blue Goose	150	AR
3. Mallard	150	MoR-AR
4. Redtailed Hawk	4	near whse-AR

A Drive

Tonight I ~~started~~ initiated a new nature drive which for lack of a better name I will for the time being call it Country night driving. My purpose is to see how many birds of animal life I can see or hear in about an hour drive at night as of now I have two drives in mind. Each should take an hour or so. I will call them A-drive and B-drive. My first one was tonight so it will be called A-drive. I go north on County Road N which is the Old Savannah Road to Stop 19. There I turn left and go through the hills to Amazonia. From there I go through the Amazonia bottoms in a U shape west, south & back east to K Highway. This same drive I list as A.R. on my birding routes. Tonight is Lois' car it registered 21.1 miles, took 56 minutes 6:20 PM to 7:10 PM. It was approx. one to two hours after dark. Road dry, no wind. Temperature about 40° .

1. Gats 3
2. Hogs 1
3. Horned Owl 1

Weather conditions will depend a lot on how often I take the drives.

Wednesday November 9, 1966

A DRIVE 6:15 PM to 7 PM. Cloudy, cold and damp. Used the wholesale Truck this evening & registered 20.8 miles. Temperatures today were approx. 30° .

1. Gats 2
2. Hogs 3
3. Rabbits 1
4. Opossum 1

11 11 11 11 11 11

1966

1. Common Loon 11/5/66 (2-20-66)
2. Red-necked Grebe
3. Horned Grebe
4. Eared Grebe 4-24-66
5. Western Grebe
6. Pied-billed Grebe 3-19-66 (2-23-66)
7. White Pelican 4-10-66
8. Brown Pelican (2-22-66)
9. Double-crested Cormorant 4-10-66 (2-20-66)
10. Bairds Cormorant
11. Great Blue Heron 3-26-66 (2-19-66)
12. Green Heron 4-23-66
13. Little Blue Heron 7-10-66 (2-22-66)
