Partly cloudy and rather humid. Pearl and I birded 9:30 AM till near noon near Wholesale.

Then at 1 P.M. Pearl and I went to Honey Creek and Squaw Creek with R.A. Brown and his wife Bette. He, his wife & daughter Stephanie also come up. We ate at Forest City on the way home and then started home by way of the bluff road to listen for Chick & Whippoorwill. We came down off of the Bluff road near Nodaway and the road was completely covered with water where the Missouri River had backed up. We then had to turn around and go back. We finally got home at about 11 P.M. The temperatures were low about 62° high about 83°

Partly cloudy, no rain? & nice. Temperatures low about 50° high about 80°. Pearl and I bided today mostly driving. I drove about 160 miles before noon in the 102 river bottoms east of town and at the Air port. This afternoon we drove south on Highway 59 x 45 to Brewster, Mo which is not far from Leavenworth, Kans. From there east on Highway 92 then back home on Hiway 169 except for a few miles around Trimble. I was hoping to see a Scissor tailed flycatcher but didn't do any good.

Today was a beautiful day. It was almost completely clear and cool. The temperatures were low about 55° high about 80°. I got up at 3:30 am + drove to Maryville, Mo where I met Larry Watkins and his brother-in-law Jon Luchinske. We took a Breeding Bird Survey which is designated as Bolckow M. It started just a mile or so west of Bolckow, Mo. and ran generally north for the most part along the 102 River to a point just a few miles past Maryville, Mo. We finished at 9:30 am which was about 25 minutes earlier than Pearl and I but we made better time between stops because there were more of us to keep the time and the records. Birds that are marked * are birds I saw at home later but did not see on our survey.

Today was cloudy till about 2 PM, then clear, hot & humid the rest of the day. I didn't go anywhere birding today except a couple short rides from home. I stayed in all afternoon and got my report out for the "Spring Survey" for the Bluebird. Temperatures today were low about 71° high about 87°. Last night we had the worst electrical storm I have ever seen. It was one tremendous crash right after ~~another~~ another for over an hour. We had 1.95 inches of rain.
