37	Harris Sparrow	1	AR
38	Song Sparrow	4	AR-SQ

Today started out nice. The sun awakened us at 8:15 AM coming in our bedroom window. We ate breakfast & was ready to leave at 9:30 AM for Squaw Creek via our various roads. At that time it had clouded up and when I backed the truck out of the driveway I had a flat tire. I changed the tire, took the flat to a service station near the wholesale and took the spare tire out of one of the other trucks and headed for Squaw Creek. We arrived there at 12 Noon and ate lunch at 1 PM. I drove down into the prairie area then where I planned on walking to flush birds from the tall grass. It then started raining and as the temperatures were in the lower 30's I headed for home. Therefore our day was not as nice as it could have been. Temp. low 20° high 44°

Today was cloudy & chilly & icy all day we had freezing rain until 11:00 AM. During the night last night we had thunder, lightning and rain. All streets and highways are ice-covered. One of my drivers from the wholesale Dept, Ross Wolfing turned his truck over up near Sherandoch Iowa this afternoon. I don't know yet how bad it was. Ross (Bing) is well enough that when he called on the phone he said that he would catch a bus home. Temperatures today were low about 20° high about 33°

Today was partly cloudy & chilly but nice. The temperatures were low about 20° high about 36°. I birded 8:30 AM till 10 AM with Si east of town. 10 AM till 11 AM in Ashland Cemetery with Dave. Easterla looking for the Solitaires. 11 AM till 12:15 PM with Pearl and then 1:30 PM till 5:30 PM with Si and Monga from home to Squaw Creek and back. With all the water areas at Squaw Creek & over there was very little activity. Most waterfowl has moved to the Missouri River.

Today was clear and nice all day. Pearl and I birded together all day. We started out at 8:30 am

First we birded Ashland Cemetery then east of town in the 102 River bottoms (0-MAR), then back toward home and then along Amazonia Road (AR), up the river road and on to Squaw Creek. It was fairly muddy and the clutch on the truck is bad so I was scared the whole time I was gone. We got to Sq. Cr. at 12 Noon & headed back home at 2:30 PM. I probably missed some good birds as there were many of them there. We got home at about 4:30 PM. Temperatures today were low about 29° high about 47°.

Today was mostly cloudy but nice. The temperatures today were low about 28° high about 51°. yesterday evening Pearl and I went out to Hon + Maude Reynolds house. Richard + Donna Wolf also came over. The reason was to see what Hon has put together so far of a film on Texas titled "South to Swamp and Thicket". So far he has about 40 minutes to show so far I think that it is very good. Our trip to the Big Thicket area of Texas last spring is a part of it. It is sponsored by the St Joseph Museum and the St Joseph Audubon Society. It will be as above mentioned and by Richard Wolf, Hon Reynolds and Lloyd Lawton. We hope to go back again next month for more footage on the film.

Today I saw a fight almost to the death between two Redhead Woodpeckers. I suspected them of being two males fighting over a breeding territory. It might have ended in death but I stopped them. They were fighting in the road. After I made the victor fly, the other one was only barely able to crawl from the road into the roadside brush.

Today was a typical March day. It was clear, cloudy, windy, calm, snowing, blowing, freezing and thawing. Temperatures were low about 10° high about 30°. Pearl & I bided 8:20 AM till 11:30 AM east of town and at the Airport. Bob Brown picked us up at 1:15 PM. We bided here to Squam Creek & Big Lake & back by 4 PM. Everything frozen over
