Today was mostly clear, windy & warm. Temperatures were low 38° high 59°. I picked Kenneth Jackson up at 7:30 A.M. and we headed south to Agency, Mo. There is a side road just about a mile from Agency, Mo. that is about two miles long. There is much brush along it and not much traffic. We had lots of birds there. We then drove southeast from there to Smithville Lake. I missed several water birds there that I had hoped to see. We finally headed for home after a good walk along a part of the lake. I finally got home at 4 P.M.

Today was clear and cold. The temperatures were low 9° high 25°. Except for taking Lois to work this morning and picking her up this evening I stayed home all day. I got a letter in the mail today from Berlin Hech mgr. of Squaw Creek N.W.R. It was forwarding on to me a documentation made of "Black Legged Kittiwake" probably an immature bird. It was seen and documented by Michael + Carol Newlon of Iowa City, Iowa

* The 5000 estimated Crows which I have listed I saw from my back bedroom window as the lit in the trees up along the parkway of the northwest Boulevard System. After resting there for some time they began leaving. I watched them as they flew away. They were grouped too many to count so I would go so far and estimate them by the hundreds. After awhile they petered out and I had estimated 2700. I then looked at the trees and they were still black with crows. There may have been more than 5000. Just at dark I looked there and they were all gone.

Today was cloudy & chilly all day. Temperatures were low 30° high 52°. Ken Jackson picked me up this morning at 7:30 AM & we headed north & west. We drove through the Amazonia flats & from there to Honey Creek where we spent about two hours. From there we drove on up the River Road to Squaw Creek where we stayed until dark. ~~Ken~~ Berlin Heek had an injured immature Red tail hawk that had been picked up on the refuge and he asked us if we would bring it back to St Joe & take it to Countryside Vet Clinic. Naturally we were happy to do so. We finally got home at about 6 P.M.

Today was cloudy, damp & chilly all day. The temperatures were low 28° high 34°. We stayed home all day and then this evening Pearl & I went to the funeral home to see Maretta's grandmother. Her name is Rosa Lee North. She passed away last night at her home. She was 100 years of age. We kept Ragan this morning while Maretta went with her mother to make all burial arrangements. Tonight's paper says that we had 4.64 inches of rain over the week end. It was badly needed.

Today was partly cloudy and cool all day. The temperatures today were low 23° high 30°. This morning Pearl & I went to the funeral for Marettas grandmother. When we got up this morning we had a 2 1/2 inch snow on the ground. This afternoon Pearl & I took a ride down around Lake Contrary and later on I took a walk thru Ashland Cemetery. The Oregon type Dark eyed Junco at Ashland Cemetery was the best one I have ever seen since I have been birding. I believe that at least most of my other records were of the Pink sided phases.

Today was clear and warm. The temperatures were low 30° high 56°. Ken Jackson picked me up at 7 a.m. this morning & we headed for Lake Jacomo. We made it there in just about an hour and a half. We covered the area pretty good but we didn't find the Oldsquaw ducks until afternoon and we never did find the crossbills. We left there around 2:30 P.M. & stopped by Smithville Lake on the way home. From there we took some back roads coming home and it was 5:30 P.M. when we finally got home. Ken lost a pair of his binoculars. He was sure he had laid them on the hood of his truck. & when we backed out they probably fell off. He missed them after we had gone about ten miles so we turned around and went back but couldn't find them. Some one had probably come by & picked them up.

Today was clear & ~~cool~~ Cool but real nice. The temperatures were low 28° high 43°, Pearl & I went to Squaw Creek this morning. We were gone only for 4 hours 9:15 AM till 1:15 PM. This was what is described as Eagle day at Squaw Creek. It is a promotion to acquaint the people of north west Missouri to the fact that there are many Eagle which come in during the winter. There are movies, talks & tours. There had to have been several hundred people there.

Today was clear & nice. The temperatures were low 26° high 52°. This morning I went to Ashland Cemetery for my walk. My first big surprise was seeing a male ~~Pine~~ Scotch Pine Grosbeak sitting on the tip top point of a ~~Red~~ Scotch Pine tree. I made my rounds and then started to leave so I could get home & call Ken Jackson. On my way out I met him so in looking for the grosbeak we found two male White winged Crossbills. We never did find the Grosbeak. This afternoon Pearl & I took a short ride east of town & then met Ken at the cemetery at 4 P.M. We stayed till dark but never did find the Grosbeak.

Today was mostly clear & nice. The temperatures were low 27° high 57°. I spent most of today running errands. My little dog "Susie" apparently had a partial stroke during the night. ~~She~~ has almost no use of her two front legs. If she can get up on them she can walk around some but not very good. But it is almost impossible for her to get up by herself.

Thursday, December 18, 1980

Today was partly cloudy but rather nice. Early this morning it was slick driving. It was a real light rain that froze. I picked Kenneth Jackson up at 7:30 a.m. and we drove to Squaw Creek where we met Mark Robbins, his girl friend Cathy, Tim Barksdale and Bob Brundage. We bided around the Squaw Creek area and then over by Big Lake, back thru Squaw Creek, and then Ken & I headed back for St. Joe. We stopped by Honey Creek Area, then thru the Amazonia flats and on thru Ashland Cemetery & then home. Temperatures today were low 20° high 33°.

Today was mostly cloudy but not cold. Temperatures were low 31° high 43°. ~~Outgoing~~ I went to Ashland Cemetery this morning and took my ~~walk~~ walk. Then this afternoon about 3 P.M. I had a call from a man at the St. Joseph News Press who said that he had just received a call from my nephew Ival at Lake Conroy and said that there were two Swans there on the Lake. I hurried down right away but Ival said the birds had just flown away a few minutes before. He said that they were Mute Swans. Some how I doubt it but I didn't see the birds & he did.

Today was partly cloudy, humid and not so cold. The temperatures were low 30° high 47°. At about 4 P.M. this afternoon I got a call from Tim Barksdale at Maysville, Mo. He sounded almost as if he could cry. Mark Robbins had dropped him off in Maysville where Tim picked up his old pick up truck that had been worked on at a garage there. He was about 6 miles out of Maysville when a Highway Patrolman pulled him over. The license on the truck were ~~old~~ old and had expired and when the Patrolman asked for his drivers license Tim didn't have any because they were suspended. The Patrolman made him drive back to Maysville and leave his truck there and Tim was to put up \$100.00 bond. He didn't have any money so he left his camera & camera equipment there for collateral. He didn't have any way to get out of town except on foot so he called me. Pearl went with me & we picked him up about 5 P.M. The fog ~~was~~ was bad going out and continually got worse on our way home. One time on highway 36 when I saw headlights dead ahead I found that I was astraddle of the center line. Then we finally got to St Joe & turned north up

Interstate/Highway 29. I missed my regular turn off before I realized it so I had to go on to the Savannah Mo. exit to get off and then I had to come back to St Joe. I finally made it with the good Lords help. Tim is going to stay with us tonight. His wife is wiring by Telegraph \$100⁰⁰ to a bank in Maysville so tomorrow morning I am going to take Tim back to Maysville so he can exchange the \$100⁰⁰ for his Camera + equipment

Today was clear + frosty until around noon. First this morning I had to take Maretta to work because her car wouldn't start. When I got back Tim

+ I headed for Maysville. We stopped on our way at Pony Express Wildlife Area. When we got to Maysville we found that the money that was to be wired to a bank there was not there. He called his wife from there and found that we had to go to Cameron, Mo. to pick it up. So, we went to Cameron to get the money and then came back to Maysville. We found out then that we had to wait until 1 P.M. for the Judge to get back. We finally got back home at 2:30 P.M. Mom called just as we pulled in the drive so I went + picked her up and then came home in time to help Tim pack his stuff and I took him to the Bus station and got him on the bus at 3:45 P.M. heading for Columbia, Mo. Temperatures today were low 29° high 48°

Today was clear + nice. Temperatures were low 30° high 48°. I went to Honeycreek this morning for a couple of hours with Larry and Chad. Other than that I stayed home all day.

High lights of 1980

This was a very dry year. We wound up with 27.69 inches of precipitation. We were down 7.84 inches below normal for the year.

One of my most pleasant experiences this year was introducing a new man to birding. He is a Mr. Kenneth Ray Jackson. He is 43 years of age. He is real pleasant. He has very good eyes and ears. He is really doing a good job. He has over 200 Missouri birds 1980.

My car broke down on April 23, 1980 and it was partly out of commission until I finally had the last work done on it on Oct 1, 1980.

May 12, 1980 was my one biggest day of the year. Leo Galloway and I took Bill Bennett, the St. Joseph News Press & Gazette outdoor writer with us on a dawn till dusk birding trek. We wound up with a combined list of 123 species. We bypassed our best area at Honey Creek because it was too muddy to get in, and we came in too early to get Whippoorwill & Chuckwills W. down.

Leo Galloway & I spent May 18th & 19th in southern Missouri where after a good many years I finally came up with a Bachmans Sparrow.

September 24th. Pearl & I found a Parasitic Jaeger at Lake Contrary. It stayed for eight days and I was able to show it to many bird watchers.

Elizabeth Cole died on May 22, 1980.

Leo Galloway and I helped with the release of near 50 Ruffed Grouse in the Monkey Mountain and Honey Creek Wild life areas on August 9th.

Ken Jackson and I observed a Prairie Falcon flying over head at ~~Monkey Mountain~~ Horseshoe Lake on Oct 25th.

Three new birds were added to my Missouri list. They were Bachmans Sparrow, Parasitic Jaeger and Prairie Falcon. We just missed a Red throated Loon at St. Louis.
