Today was a beautiful day for birding. I got up this morning at 3 A.M. after only two hours sleep during the night. Ken Jackson picked me up at 4 A.M. and we headed for Atchison County Missouri to take the Tarkio Breeding Bird Survey. It is Ken's survey route and I went along to help. All listings (*) were seen in Atchison County, mostly on the breeding survey route. It runs generally east & west from about 12 miles east of Tarkio to 12 miles west of Tarkio. From there we drove south to Squaw Creek. Today was clear and really chilly this A.M. It had rained here at home during the night but not in Atchison County or at Squaw Creek. Temperatures today were low 53° high 68°. I got back home at 5:15 P.M.

Today was cloudy and windy all day. Yesterday evening Ken and I decided to run my breeding bird survey so I got up at 3:30 a.m. I left home at 4:30 a.m. & drove by Ken's house & picked him up & headed for Tazewell, Mo. where ^{my} survey route starts. When we got into the open country we found out how windy it really was so we discontinued the bird count. We did bird in that general area and at Pony Express Lake Wildlife Area & then came home about 11:30 a.m., calling it a day. Today was Ragan Lynn Lawhons birthday, 5 years old. Larry & Maretta had a birthday dinner for her at their house. Pearl, Lois & I went down for the dinner and took our gifts to her. We then went to the hospital to see Alice Jackson (Pearl's sister) and to also visit a neighbor lady who was there. Temperatures today were low 60° high 78°

Today was clear & rather warm after a rather stormy night in the wee hours of this morning. I went to Bluff woods this morning and took a walk on the "Old Barn Trail and Lone Pine Trail". The total walk was some where around 3 to 4 miles. I went hoping to see or hear the worm eating warbler but I did not get it. I guess it did not come back to Bluff Woods this year. I was home shortly afternoon. The temperatures today were low 60° high 79°.

Today was mostly cloudy, a bit windy + a bit cool. I checked my rain gauge this morning and had 3.15 inches of rain. We had Thunder storms and very hard rains all night long. All the smaller rivers, the 102 River, Platte River and Nodaway River were all out of their banks this morning. Around noon today a man called me from the Bean Lake Area + said that he had three Glossy Ibis across the road from his house in a field with his cattle. I called Mike McKenzie at work + told him about the birds. They would be a lifesaver for him. I met him at 4 P.M. + we drove to the mans place. We couldn't find the Glossy Ibis but there were six Cattle Egrets. This mans home on small farm is just across the marsh from Little Bean Marsh. Mr. Chaffin himself had gone to work but we did meet his wife son + daughter. They were real nice people. Temperature low 61° high 71°. got home 7:10 P.M.

 Today was a beautiful day for birding. It was clear & cool without much wind. The temperatures were low 45° high 75°. The low was a record low. This morning Pearl and I took our drive down around the lakes and then to Bluff Woods where we took our walk. Ken called me shortly afternoon & asked if I would run my Breeding Bird Survey tomorrow if he could get off from work. I told him yes. So then Pearl & I drove our survey route to see if all the roads were O.K., There were some ~~bad~~ bad places in the roads but we made it O.K.

Today was a pretty good day for doing the Breeding Bird Survey count. The day was cloudy and the only way to improve the weather conditions during the census would have been to have sunshine. The day was cloudy & cool all day with practically no wind. I got up at 3:15 a.m., picked Kenneth Jackson up at 4:45 a.m. & headed for Irazier where we began our bird census. It ran from 5:20 a.m. until 9:45 a.m. when we finished it we headed for Smithville Lake where we made a pretty good tour. We were back home at 2:30 p.m. The day was mostly cloudy & cool all day. We had a light rain in the Smithlake area for a couple of hours about 10:30 a.m. till about 12:30 p.m. Temperatures today were low 55° high 66°

This was a beautiful day, especially this morning. Pearl & I left home at 8:10 A.M. headed for Squaw Creek. We drove out the Amazonia Road, thru Amazonia & on up to Honey Creek. We birded there awhile & then drove over State Hy. U to State Hy T which I refer to as River Road. Actually it could be called River Road from Amazonia, thru Nodaway, up Monkey Mtn., thru Jorbes, thru Forest City and on to Squaw Creek. We arrived at Squaw Creek at 11 A.M. We were planning on staying there until dark but half or more of the roads were blocked off so we left there about 2 P.M. and was home around 3 P.M. The temperatures today were low 56° high 80°.

Today was partly cloudy + rather warm with a few light showers this afternoon late. Pearl + I worked for several hours today from about 9 AM untill about 3:30 P.M. painting our deck outside our kitchen. I am really tired this evening. Most of the time we were crouched in a sitting, stooped or bending position. I stayed home all day. The temperatures today were low 52° high 80°

Today was a beautiful day. It was clear all day and cool till around noon. This afternoon it was rather warm in the sun but nice in the shade. I birded sitting in my back yard till about 11 AM + then Pearl + I went birding by driving Lois' car. First out Mitchell Ave Road and back in the Cook Road + County line road to Interstate 29. From there to Honey Creek Wildlife Area + from there to Squaw Creek. We left Squaw Creek at 6:30 PM + headed for home. We got home about 7:10 PM. We drove 113 miles. The temperatures today were low 59° high 82°. Larry, Maretta + the two kids, Chad + Ragan are leaving for South Dakota for a few days vacation.

67	Chipping Sparrow	3	Montrose - Truman St. Park

Today was mostly clear, hot + humid. The temperatures were low 62° high 82°. Kenneth Jackson picked me up at 4:30 A.M. + we headed south. We drove down past Sugar Lake + Bean Lake to near Weston Mo. then east to Highway I-29 at Platte City + then south and east to the Montrose Lake Wildlife Area, then to Taberville Prairie and from there to the Schell Osage Wildlife Area. We ate our lunch there. Water is high everywhere. It was higher at Montrose Lake and at Schell Osage Wildlife Area than I have ever seen it before. On leaving there we drove east + north to the Harry S. Truman Reservoir and State Park Area. The State Park is yet under construction so we couldn't get in there. Ken did get two lifers, the Sussontail and Henslows Sparrow. I had hoped that he would get the Prairie Chicken but we failed there. We got back home at 7:30 P.M. Kenneth drove a total of 445 miles today.

Sunday June 27, 1982

Today was clear, hot and humid. The temperatures today were low 66° high 92°. We turned on our air conditioner here at home this evening. We have been trying to trap Raccoons here at home lately that have been causing us problems. Lois is really doing most of the work. She caught one about a week or so ago which she took about ten miles out in the country and turned loose. This evening she caught a second one which she, Larry and Chad took away, I think to the same place I believe that there are three more young coons.

Wednesday June 30, 1982

21	Chipping Sparrow	1	X

Today was partly cloudy, hot and humid. Temperatures were low 67° high 87°. Pearl & I worked all morning putting screen on our front porch. I was on our step ladder when it slipped sideways. I grabbed for the porch railing & caught it with one hand. I held hold of it about 8 to 10 feet above the ground. My hand slipped down to where it was caught in a part of the grill work I was hanging there & couldn't let go without losing my hand. Pearl got the ladder back in position & I got back on it. I lost a lot of meat off the back of my hand. I was really exhausted the rest of the day and I went to bed at 8:30 P.M. in broad day light.

Today was clear + nice A.M. but clear + hot afternoon. This morning Pearl + I took a short ride up the Amazonia Road to Savannah, back thru Amazonia to home. Then this afternoon Pearl + I left home at 3 P.M. + headed for Squaw Creek. From home we drove thru Amazonia, Nodaway + into ~~Wagon~~ Honey Creek. From there we drove up the River Road and into the Squaw Creek National Wildlife Refuge. We stayed there until almost dark and then came back down the River Road to listen for the Chuck-wills-Widow and the Whip-poor-will. We got home at 10:20 P.M.

Today was clear and hot. The temperatures were low 62° high 88°. Chad is spending most of his school vacation days with us until Larry or Marcetta gets off from work. I took him and Pearl in the eastern part of town to the doctor for Chad who has a very sore ear. While they were in the doctors office I took a little drive in the Riverside Road and Cook Road area. We spent the rest of the day at home.

Except for about half an inch of rain early morning that we really didn't need, this has been a real nice day. It was cloudy & rainy until around 10 A.M. and then stopped raining & started clearing off. The temperatures were low 66° high 78°, Pearl & I made our drive this A.M. I walked the Rappahannock trail at Bluff Woods.

Today was a real nice day, that is if you were not working out in the sun. It was clear and a pleasant breeze all day. The temperatures were low 62° high 83°. Pearl & I took a pleasant drive this A.M. up the Amazonia Road thru Amazonia ~~and~~ and on to Honey Creek & from there west to the River Road (Hy T), up the road to Jorhes, Mo & from there back to Hy 59 and then on home. I stayed home the rest of the day.
