Today was another day, dark, cloudy, foggy and chilly. Temperatures were low 28° high 37°. I stayed in all day, except to go outside on two occasions to put out feed for birds and squirrels. I got up this morning at 7 a.m. after pretty much of a sleepless night. Lois seemed to have the same problems. I wasn't sick but I still do not feel good. It seems that anything I eat upsets my stomach. I plan on staying up later tonight.

Today was clear & cool untill noon. It then clouded up but continued warming up. Temperatures were low high . I was very much surprised today to see no Blue Jays here at home. That is very unusual. The following page covers birding trips & tours that took me 100 or more miles from home.

1986 Review

I got off ^{to} a good start by birding in Shannon County in southeast Missouri until afternoon and then headed for St Joe. We got home about 9 P.M. I had only 35 species for the day but about six of them I would not have seen if I was birding in N.W. Missouri. Also birding to day with Mark Robbins was an education.

On January 6th Leo + Ruth Galloway and I spent the ~~for~~ day birding at Montroze Lake + Wildlife Area, Taberville Prairie and at Shell Oage Wildlife Area. We didn't see anything exciting but a few of ~~of~~ them we probably wouldn't see in northwest Missouri until a month or so later in the year.

Leo + Ruth Galloway and I drove down to the Shell Oage Wildlife Area again today Saturday March 22nd.

We birded the area pretty good & then headed home early when a noise began knocking in the motor of his car.

Leo Galloway + I drove south today, Thursday 24, 1986.

We birded at Taberville Prairie and Shell Oage Wildlife Area again today. The two areas are only about ten miles apart and birding can be good on both of them.

Got up 2:55 a.m. the morning of April 29th. Leo Galloway picked me up at 4 a.m. + we headed south with our destination southeast Missouri. We birded a good part of the morning birding Ritter Spring Park in Springfield, Mo. and then headed on east to Poplar Bluff, Mo. We birded the southeast Missouri area. We birded a total of three days, getting home about noon on May 1st. We birded two days, or a part of two days at Lake Wappapello, Big Oak Tree State Park, Black Creek Wildlife Area and at Springfield, Mo. We saw one or more birds in the twenty counties that we were in.

Thursday May 8th Lois + I spent the day birding at Squaw Creek and at Indian Cave State Park in Nebraska.

Saturday + Sunday May 10th + 11th I helped as one of the welcoming committee + tour leader in the Squaw Creek N.W.R. The Audubon Society of Missouri are having their spring meeting + get together this week end at Squaw Creek.

Dec. 13/11.

Spent two days in Central, west & southwest Missouri birding with Mark Robbins. I also participated on the St Louis Squaw Creek Christmas bird count this year. Except for July 2, 1959 when I began my bird watching this was probably my best and most active year in all my birding.

Oct 25th

I left St Joseph today (May 15th) for what turned out to be a fifteen day birding trip to the southwest, Arizona the main birding state. We did make a quick two day trip on into California. I went with Leo & Ruth Galloway. I added 41 lifers to my life list of birds. I have to give Leo Galloway credit because it was his idea & most of the expense was his. These 41 species puts my life list of birds over the 500 mark. We were in seven different states.

Monday June 9, 1986. This morning I left again on a trip, mostly a dream vacation trip which covered eight days in nine states in Yellowstone National Park, Grand Teton National Park and Rocky Mountain National Park. We were in Montana and Idaho which were two new states for me. Also in Utah was a new state for Lois. Almost all of them were new states for Chad. Lois, Chad and I made the trip together. All of it was new to Chad, much of it was new to me but the only thing new to Lois was two new states, Idaho and Utah. I added two new species of birds on this trip.

August 9, 1986 This morning I left with Leo Galloway and David Easterla on a two day trip to the southeast corner of Missouri to see an Anhinga which was my 339th bird species seen in Missouri.

August 12th I made another birding trip to Shell Osage Wildlife Area and Taberville Prairie with Leo & Ruth Galloway.

Aug 21st, Lois & I made another trip to ~~the~~ Indian Cave State Park in Nebraska & of course drove through Squaw Creek on our way home.

October 4th & 5th. I went to Lake Ozarks State Park today for two days of birding & business meetings & visiting several good friends. I went with Dave Easterla & two of his students.

Went again to s.w. Missouri today with Leo Galloway to look for a rare Mountain Plover which was seen earlier in the week but we failed. It was rainy all day. Est. 50° shorebirds

* This prairie falcon was seen again on Feb 22nd in same area & verified as a prairie, on Jan 7th when Leo Halloway & I first saw it I felt sure it was a prairie falcon but couldn't see the facial pattern on the axillaries, I was going mainly on its light brown color. I was definitely on of the larger falcons
