On Wednesday June 25, 1958 we had a temperature reading here at home of 45° on our front door at 10:00 P.M. Today (6/27/58) I received my Bushnell Telescope. The ~~Bushnell~~ Telescope cost me a net of \$57.00. One additional eyepiece of 60X was \$13.50 and the tripod was 11.97 for a total of \$82.47. I was very fortunate to pay only that amount as Simon Rositzky got it for me at a 40% discount. Otherwise they would have cost me near \$150.00. Bob Brown said he saw a Red-breasted Nuthatch in his yard on June 21st. and 22nd.

Bob Brown and I left home at 10:30 A.M. and headed for Squaw Creek. Today was windy but clear. Was most surprised of all to find two Mergansers. They were both a pretty dark brown with no outstanding

markings of any kind. Saw 11 wood Ducks and 10 Black-crowned Night Herons, about 10 American Egrets. I believe that the shore bird was a Greater yellow-legs or willet. It was at too great a distance to see very well. It was a pretty good sized bird.

We saw 10 Western Kingbirds in about 5 miles between Lake Contrary and Mud Lake on telephone wires in open country. It was a nice day. Pearl and I went riding 1 P.M. to 4:30 P.M. Mud Lake, Lake Contrary, Sugar Lake and Country roads.

Tuesday, July 8, 1958.

Today Pearl, Lois, Larry and I left home at 12:30 PM. and drove up through

the "Squaw Creek National Wildlife Refuge and then over to Big Lake where we fished for a short while. We arrived home at 5:30 PM. We saw 8 Western Kingbirds within a 10 mile radius of Squaw Creek and Big Lake. We saw one about 8 miles Northwest of home

Most birds listed so many miles North were seen on the old Savannah Road. Then we drove on west to Amazonia and then took the river road on back to St. Joseph

Today a Yellow-billed Cuckoo flew into Zaidee's Picture ~~Window~~ window and injured itself. It died about 2 hours later. It measured $11\frac{1}{2}$ inches from tip of bill to tip of tail. It had $16\frac{1}{2}$ " wing spread, $5\frac{1}{2}$ " tail, $1\frac{1}{4}$ " beak, $1\frac{3}{8}$ " claw from tip of front to back of hind toe.

Took a walk this afternoon in Krug Park. It was my first walk there in a long time. 2 P.M. to 3:40 P.M. In the rain most of the time and I really got soaked. Saw several small birds. Probably warblers but too rainy to really identify them.
