Today was partly cloudy, windy and cold. The temperatures were low 40° high 60°. I got up at 6:45 a.m. after breakfast I birded for about an hour + a half in Koug Park and in hills along Nw. bvd.

I then came home & picked up Pearl. We then went to Ashland Cemetery and on out east of town. From there we drove to Honey Creek. We ate our lunch there and then headed for Squaw Creek. We left there about 6:30 P.M. and headed back home. With the wind as strong as it was I am surprised that I wound up with any where near 100 species. Several of them were surprise birds such as the Turkey. We saw it along side a road ~~was~~^{we} got quite close to it. I consider my best bird the Peregrine Falcon.

Today was clear and real nice. It was a beautiful day. I would have loved to have spent the whole day out birding. I had thought of going to Honey Creek this evening but I was too tired and Pearl was baby sitting with our grand son Chad Michael. Temperatures today were low 36° high 64°. We had frost again this morning with ice on the bird bath.

Today was clear, cool and real nice. The temperatures were low 41° high 69°. I got up at 5:15 AM. ate breakfast and then at 6:30 AM. I took off with Leo Galloway and Simon Rositzky for a day of birding. In all of his years of birding Leo had never listed 100 or more species. I told him that if the weather was half way decent I could get

him 100 or more species. We birded first in Krug Park. From there we went to Lake Contrary, Mud Lake, Muskrat Lake and Horseshoe Lake. Si had to go back to the office at 10 A.M. so we headed back for St. Joe. Leo and I then birded N.W. Blvd, out east of town, then back and up through Honey Creek and from there on to Squaw Creek. We arrived at Squaw Creek about 3:40 P.M. We birded there then until about 8 P.M. We came back by way of the River road trying for Whip poor wills and ^{that I missed} Chick wills. Leo had only one species, the King fisher. Si, who came to the Refuge about 4 P.M., had a Horned Owl which we missed. I had about half a dozen species that Leo missed. I have only 3 other days larger.

Today was clear + warm. The temperatures were low 50° high 76°. This afternoon after work I went to the hills along Nw. bvd with Jval Lawhonts find him a few birds for his life list. I believe that he added seven. Pearl had mowed all day. She was tired and so was I so we stopped at a drive-in + picked up some food + went to Honey Creek where we stayed until 7:30 PM. On our way home we saw two Coyote.

While we were gone Mark Robbins and Ken Kaufman stopped by to see me. I really felt bad on missing them. Right now Kenn Kaufman holds

the record of seeing more birds in one year in N. America than any one else ever. This excludes Mexico.

5-11-76 7,832 turkeys killed

JEFFERSON CITY, Mo. (UPI) — Missouri hunters killed 7,832 wild turkeys, the most in modern history, during the two-week season which ended last Saturday.

The Department of Conservation said the previous high was 5,724 in 1973. Ste. Genevieve county led with 369 birds checked by state game wardens.

Today was cloudy and rainy most of the day. The temperatures were low 56° high 69°. After work it had practically stopped raining so I took a walk in the hills back of home. Today Mark Robbins, Ken Kaufman and Dave Easterla were going to try for their big day. Last year Dave + Mark had 168 species and they had hoped for 170 species today. I had planned on meeting them this evening at Squaw Creek but because of the weather I did not go. Maybe they called it off also.

Today was cloudy and rainy most of the day. I

worked until noon Today with Art Lefever. We were just fairly busy. After lunch Pearl & I took a drive down around the lakes and then back out east of town. Temperatures today were low 55° high 64° we got home at 4 P.M. & stayed in the rest of the day

Today was cloudy and rainy almost all day. I got up at 6:15 a.m. at 7 a.m. Si Rositzky + I started out. We went to Krug Park first. We didn't even get out of the car there because of the rain. We then went to NW Blvd where we spent about half an hour in the rain. We then drove to Lake Contrary. From there we drove to Bluff Woods State Forest. From there we came on home arriving at about 11:20 a.m. I then spent about an hour by myself in the woods along Northwest Blvd. After dinner Pearl + I took a drive out east of town, up through Savannah Mo + back home through Amazonia. Temperatures low 54° high 62°

Today was another beautiful day, clear & warm.

The temperatures were low 39° high 71°. When I first got home from work I spent only a few minutes to help Pearl with her mowing. I then went up in the hills in back of my home. I was disappointed in my showing of warblers. Ival called me about 6:30 PM & wanted me to go with him down around the lakes. I would have gone but I was really tired and had not eat any supper yet. He called me again about 9:15 PM. to tell me that he got pictures of American Bittern, Cattle Egrets and yellow-headed Blackbirds. He now has pictures of 104 species of birds.

80	Song Sparrow	6	Sw.L.

Leerd and I got up this morning at about 5 a.m.
 We ate breakfast, loaded our car and at 6:45 a.m.
 headed east; at 8:20 a.m. we stopped at Chillicothe

Today was clear and pretty warm. Temperatures low 69° high 91°
These temperatures were at St. Joseph.
Dave Freeman and Art DeFever worked today.

Missouri where we reserved a room at the Queen City Motel for tonight. We then drove on east another 20 or so miles to the Gen. Pershing Memorial State Park. We planned on birding there for awhile but the mosquitoes were bad so we then headed south to the Swan Lake National Wildlife Refuge. We birded there by ourselves until noon and then more Missouri birders from St. Louis, Jefferson City and Columbia Mo. showed up. There were twenty of us in the group. This was a Spring Field Trip. We birded all afternoon at the Swan Lake N. W. R. and at the Fountain Grove Wildlife Management Area. We all met at Chillicothe, Mo. this evening where we all had dinner together and then had an informal meeting until about 10 P.M. Pearl + I and about 5 other ones stayed at the Queen City Motel in Chillicothe.

77	Field Sparrow	5	Sw. L.
78	Song Sparrow	7	Sw. L.
79	Upland Sand piper	1	P.S.P.

Today was cloudy and chilly all day after a good hard shower early in the morning. Paul + I got up at 6 a.m. We ate breakfast at 7 a.m. and then at 8 a.m. we headed back for Pershing State Park. We met most of our group there. We birded there for an hour or so, it was rather muddy. and then we headed for Swan Lake N.W.R. again. We birded the area there

in which we got our shore birds yesterday and then at 12 Noon Pearl and I started working our way back to St Joe. We stopped along the way a few places to look for birds. We got back home at 3:30 P.M. We had driven a total of 336 miles and had a good time. We wound up the two days with 99 species of birds. The temperatures today were low 57° high 68°. Probably my most surprising bird of the trip was the Junco today. Of the twenty there besides Pearl & I were Paul Bauer, his wife & two children, Bill Goodge, his wife & two children Sid & Katherine Wade, Bonnie Mae Dunlap, Jim Rathert, Virgie King & 5 others that I didn't get their names. Something that struck me as odd this evening was seeing Pine Siskins feeding on a bag of sweet.

26	Grasshopper Sparrow	1	o
27	Chipping Sparrow	3	o
28	Night Hawk	1	x

Today was clear & nice after a cloudy, chilly A.M. I was really bushed today. I believe that the tension over the past two days has tired me as much as the actual physical work. Temperature low 52° high 69°
