Today was cloudy all day, damp + a bit chilly. Temperatures were low 52° high 58°. Lois says that it has been because we have been so good to her that today she gave Pearl and I five - one hundred dollar bills. She ~~insisted~~ insisted that we take it so we put it in the bank in our savings account. We told her that it will be there if ever she needs it.

Friday, April 22, 1977

14 Grasshopper Sparrow	1	0
15 Chipping Sparrow	1	X

Today was cloudy, damp & chilly. The temperatures were low 52° high 58°. We had mushrooms for supper tonight. Kenny & Gaiden gave us a mess. Lois ate with us. Mark stopped by the Wholesale this afternoon for a few minutes. He was on his way to the airport. He was going to Tucson, Ariz. to help with a study that he had started on an area near there. He will be gone only a few days. About June 10th he is flying to Kenya & Africa where he will spend about three months. Some of it will be birding on his own but most of it will be making a study of some areas. He will be in Kenya, Nairobi, Madagascar and N. E. Tanzania. I would sure love to hear of his experiences when he returns.

Today was clear and nice. The temperatures were low 51° high 78°
I worked till noon with Bettie. Right after lunch Pearl and I
took off & drove down around Lake Contrary, Mud Lake, Bluff-
woods and Browning Lake. Our finds were very few. I stopped
at a nursery on the way home & bought a Green Ash Tree.
We planted it in our front yard.

Today was clear, cool & windy. Except for the wind it was a day hard to beat weatherwise. Temperatures were low 48° high 66°. We began our daylight savings time today. Si picked me up this morning at 7 a.m. we birded Krug Park, NW. bud and out east of town. He brought me home at 11:30 a.m. I ate lunch and then at 1 P.M. Pearl & I took off going first to Honey Creek & then on up to Squaw Creek by way of the River Road. We got back home at 8:40 P.M. While at the Refuge we saw John & Julie Hamilton & two of their girls, Tim Barksdale & his wife and Si, Monga, Rev. John Watson & his wife.

Today was cloudy & rainy most of the day. The temperatures were low 55° high 65°. I work until noon today with Bettie. After lunch Pearl & I headed for Squaw Creek. It was raining & foggy at about 7 P.M. so we headed for home at that time. I saw Dave Easterle at the Refuge. He said that he had seen a Sand hill Crane about a week ago in the Bigelow Marsh which was a very late date. Also within the last week some students from Maryville brought to him a Snowy Owl road kill. Dave said that the Owl had just been killed which was a very late date for the Snow Owl to be here.

Today was cloudy but nice all day for birding. It was muddy walking in Krug Park this morning. I got up at 4:55 A.M. Si Rositzky came by & picked me up at 7 A.M. We birded at Krug Park, Northwest Boulevard Parkway, out east of town & back home at 10:30 A.M. Pearl & I then birded at the

Airport. Pearl went to a shower 2 P.M. til 3:30 P.M. I bided then along N.W. blvd. parkway. Then at 3:45 P.M. Pearl & I birded via Honey Creek to Squaw Creek & back. We got home near 10 P.M. It was after 11 P.M. when I finally got to bed. I was supposed to have listed 100 species today but Pearl had listed Wigeon twice. So I wound up with 99 species. Temperatures today were low 59° high 71°.

Monday, May 2, 1977

Today was mostly cloudy with a little rain. Temperatures were low 65° high 74°. I was really tired this evening. At least our Mothers Day work week is over even if I have to work half a day tomorrow. Now if I can make it I have only two more mothers day weeks to go. One in 1978 and in 1979. I sure hope I make it.

Today started out nice & ended nice but rain cut me out of birding from 10 a.m. until about 2:30 P.M. Temperatures were low 61° high 72°. Si Rositzky & I started at 7 a.m. & birded Krug Park & out east of town until 10 a.m. Then it became very cloudy & began raining so he brought me home where I stayed until 2:30 P.M. when Pearl & I headed for Squaw Creek. The Laughing Gull was the find of the year for us so far. Tim Barksdale found it at Big Lake late in the afternoon and was telling Mark Robbins and Krew Thate about it when Mark saw it at Squaw Creek. Before the day was over it was seen by Tim Barksdale, Mark Robbins, Krew Thate, Si Rositzky, Mona Rositzky, myself, Pearl and David Easterle. We tried to get hold of Leo Galloway & John Hamilton but they were not home.

Monday, May 9, 1977

Today was mostly Clear and warm. Temperatures were low 61° high 82°. I worked until noon with Bettie and then after lunch Pearl + I birded together until 4 P.M. I am surprised at the lack of Warblers and of water birds around the lakes south of town.
