24.	Tree Sparrow	1	o

Today was clear & nice but chilly. The temperatures were low about 23° high about 43°. This evening after supper just about dusk Pearl & I drove out east of town to get a couple of Cedar trees to plant in our ~~[illegible]~~ back yard. The trees are along the county road right of way so they would be cut down or burned but they were to tough & big for me to pull up and I will not dig them up. I know where some smaller ones are that I will get later. Atleast we flushed a covey of Bob White and saw a fox cross in front of the truck.

Started out at 9 AM with a flat tire. Birded thru Ashland Cemetery & east of town. Then back and up Amazonia Road, River Road and Squaw Creek. Stayed at Sq. Creek until dark. Pearl & D. birded together all day. Also saw Bob & Bubbles Brown, Harold & Mrs Burgess, Hoot & Julie Hamilton and Hugh and Sally Sprague. It was a beautiful day. Clear most of the time and a bit warm. Temperature low about 30° high about 63°. We saw 9 deer at the Refuge.

Today was another beautiful day. Clear and warm. The temperatures were low about 34° high about 76°. I birded on my noon hour out east of town and then this evening 5:30 P.M. to 7:30 P.M. here to Honey Creek & back. Mostly for the rails and to listen for owls. It got real chilly when the sun went down. We heard one owl in the distance. I believe a Horned Owl but not sure.

I & Jerry Pearl & I saw a Marsh Hawk take a Meadowlark from the ground.

Low 45°
High 53°

For the most part this was a miserable day for birding. It had rained about half an inch during the night which made for muddy driving in places. Pearl and I birded 9 AM till after 12 Noon east of town and in the airport area. At 1 PM Si & Bob picked me up & we birded all afternoon at Squaw Creek. It rained on us the whole day. We would no doubt have found more had it not been rainy. Have Eastern Phoebe at the refuge which we missed. Bairds Sandpiper, Franklins Gull & Tree Swallow. Two Sandhill Cranes seen earlier in week

Today was really a March day. It was cloudy most of the time, windy, chilly, rainy + snowy. About 4:30 PM it was snowing + blowing so hard it was hard to see. In the 16½ years that I have been birding I have never seen the Robins as thick as I have today. The Robins the 275 est. Killdeer and most of the blackbirds were in a pasture of about 40 acres that had grown up last fall in a grass about 12 to 15" high and had just recently been burned over. The temperatures today were low about 33° high about 42°. We had missed our Red breasted nuthatch lately but Pearl has seen it back to our window feeders of suet and peanuts the last 2 days.

Today was clear, cool and nice. The temperatures were low about 29° high about 51°. This evening after supper Pearl + I drove down around the lakes. I am glad we did because I get the Red breasted Merganser only about every 3 or 4 years. I turned back on us to soon to make Browning Lake at the Airport.

Today was a beautiful day. It was clear & cool. I was out at Don Reynolds house last night till near midnight and I am not used to being up late so I was so tired today I did very little birding. I went to Dr. Scott C. Benson this afternoon for check up. I am trying to find out why I am so tired all the time. The temperatures today were low about 47 high about 70

40 Cardinal — Tex
41 White-throated Sparrow — Tex

Got up this morning at Magnolia Ridge. We slept in our small one man tents all night. It rained on us off and on all night but the tents held up well. Most of the morning was used in birding and movie making. It didn't do much good before noon because of cloudy weather. We didn't have much of a breakfast. We ate dinner at Silsbee, Tex and then spent about 2 hours gathering information from Mrs Watson. We drove to a [redacted] boat ramp on Pine Island Bayou where we put in our canoes at 6 PM. We floated down stream until 7 P.M. when we found a good camp site to pitch our tents. For supper we ate canned beef & gravy with rice, coffee and cookies. The day was mostly cloudy & cool. Mrs Watson will pick the car up tonite & transfer it to where we come out tomorrow. Last night we saw a live Armadillo, my first and today I saw my first Nutria.

After a very poor night I got up at 4:45 a.m. + showered and shaved then went back to bed until 6 a.m. We ate breakfast at 7 a.m. at Blue Bonnett Cafe and then headed east toward Eudalia. We wasted a lot of time this morning

but did get some good movies of a logging operation. We spent all afternoon in Devil's Pocket which is owned & operated by the Texas Game Dept. Except for photographing a few amphibians it was a wasted day. We headed back to Silsbee and ate supper at the Cafe again at 6:15 P.M. Tonight we camped on a lake shore just a few miles south of Silsbee for the night. It rained off and on during the night but never hard enough to bother us. Saw coon today

Got up 6:30 a.m. in Tent by the lake south of Silsbee. It rained off & on during the night. I slept much better last night than the night before and I felt much better this morning than yesterday. We spent all morning and early into

Wednesday, April 16, 1969

The afternoon with Mrs Watson acting as a guide for us. Our best morning finds were a Coral Snake which be collected alive to bring home and a Bachmans Sparrow. We left Silsbee around 2:30 PM and headed south and west through Beaumont, Tex to Anahuac National Wildlife Refuge. By the time we arrived there we had only 2½ to 3 hours of daylight left. It made me feel bad that we couldn't spend more time there. The whole area was alive with waterfowl of all kinds. I could easily have spent 2 or 3 days on the Refuge just going over & over the same roads. I was happy to see ~~an~~ 100 Roseate Spoonbills, 50 or so Mottled Ducks, 4 Olivaceous cormorants and many Black necked Stilts, Gallinules, White faced Ibis and others. Left there about dark and headed down coast to Freeport Tex where we took a Motel room about midnight. We ate our supper in Galveston, Tex. Was really tired & sleepy & ready to go to bed.

72 Baltimore Oriole	Tex
73 Boat tailed Grackle	Tex
74 Brown headed Cowbird	Tex
75 Cardinal	Tex
76 Indigo Bunting	Tex
77 Savannah Sparrow	Tex

Got up at 6 a.m. in the Motel at Freeport, Tex. We were ready to leave room at 6:45 a.m. Ate breakfast and then started the search for the Brazoria National Wildlife Refuge. We finally had to resort to the telephone and located the Manager, a Mr. Raymond J. Fleetwood. He is the refuge manager who was at Santa Ana when John Hamilton photographed the Hook-billed Kite there a few years ago. He directed us to the entrance gate which was locked and then he met us there. Because of practically no roads on the area we went in his 4-wheel drive International Scout. The area is all low and wet and we then proceeded on about 4 hours of the roughest riding I have ever had. Along one side of the refuge runs the intercoastal waterways. Our best bird by far was the Jacana. This is probably the northernmost record of the bird in the United States. While on the refuge we captured a diamond back rattlesnake and another snake about 6 feet long. We came out about 2 P.M. and headed back up the coast toward Silsbee. We had wanted to go to Aransas which was down coast but we were to short on time. Don & Rich still had some photographing to do around Silsbee and Rich has to be back in St Joe on Sunday.

We arrived back to our campsite just about dark where we pitched our tents first and then ate our supper. It consisted of Stew, coffee & cookies. I turned in about 9 P.M. Sorry we are not going to the refuges tomorrow.

Friday April 18, 1969

1	Little Blue Heron	Tex
2	Turkey Vulture	Tex
3	Black Vulture	Tex
4	Red shouldered Hawk	Tex
5	Mourning Dove	Tex
6	Chuck wills Widow	Tex

30	Pine Warbler	Tex
31	Brown headed Cowbird	Tex
32	Summer Tanager	Tex

33 Cardinal Tex
34 Indigo Bunting Tex
35 White throated Sparrow Tex

Got up about 6:30 a.m. to a real cool morning after a pleasant restful night. It was clear and chilly enough that we all put on jackets. All we had for breakfast was coffee and rolls. We birded in the creek bottoms around camp until noon and then headed out to some surrounding areas looking for material to photograph. During the afternoon we photographed 4 of the area's 5 carnivorous plants. I looked hard all the time for a Red Cockaded Woodpecker. We made two trips to an area where they nested last year but I still failed. We came back to camp about 5:30 p.m. We are to head back for St Joe tomorrow. In a way I will hate to leave. I picked up some birds that I didn't expect to get and I also missed several. Our mileage from St Joe to Silsbee was 877 miles

Saturday. April 19, 1969

1 Turkey Vulture Tex
2 Black Vulture Tex
3 Red tailed Hawk Tex
4 Red shouldered Hawk Tex
5 Broadwinged Hawk Tex
