McNARIE CAMPSITE - HAMILTON, MISSOURI

THE FOLLOWING DESCRIBES A SITE ON THE FARM OF LEONARD McNARIE, R.F.D. 3, HAMILTON, MISSOURI, SECTION 35 TOWNSHIP 58, RANGE 28. THIS FARM IS REACHED BY TAKING ROUTE 66 WEST AND NORTH FROM HAMILTON TO THE COUNTY LINE ROAD (CALDWELL - DAVIES) THEN TURN RIGHT (EAST). THE ROAD ENDS AT THE McNARIE HOUSE.

THE SITE, APPROXIMATELY ONE-HALF MILE NORTHEAST OF THE HOUSE WAS DISCOVERED IN THE ^{EAST} NORTH (RIGHT) BANK OF TURKEY ~~CREEK~~ ^{BRANCH} SOMETIME AFTER A SECTION OF IT WAS DIVERTED TO THE PRESENT LOCATION. NO EVIDENCE OF A SITE WAS NOTICED AT THE TIME IT WAS CUT THROUGH BUT RECENT EROSION OF THE ^{EAST} NORTH BANK HAS EXPOSED A LINE OF BURNED LIMESTONE FOR SOME 50 YARDS ALONG THE ^{branch} ~~CREEK~~ BANK. TEST DIGGINGS AT SEVERAL PLACES ALONG THIS STRATA OF CAMP RUBBLE PRODUCED CHARCOAL, FIRE REDDENED LIMESTONE, POTTERY SHERDS, FLINT CHIPS AND BONE FRAGMENTS. THE POTTERY IS GRIT TEMPERED AND CORD TEXTURED. ONE LARGE RIM SHERD HAS CONTOURS THAT INDICATES IT MUST HAVE BEEN SOME 18 INCHES OR MORE ACROSS THE CENTER AND AT LEAST 12 INCHES ACROSS THE OPENING.

THE SITE IS PROTECTED ON THE ^{NORTH-EAST} NORTH BY A TREE COVERED RIDGE SOME 20 FEET HIGH. ^{AT} ON THE ^{NORTH END} OTHER SIDE OF THIS RIDGE MARROW BONE ^{flows} INTO ^{BRANCH 50 yards NORTHWEST} ~~IS~~ ~~WASHBONE CREEK~~ WHICH JOINS TURKEY CREEK WEST OF THE SITE. ~~A HILL OR SO.~~ THE LINE OF CAMP RUBBLE IS FROM 4 TO 5 FEET BELOW THE TOP OF THE ERODING BANK AND STARTS FROM 2 TO 3 FEET

branch bottom at the time of the first diggings
ABOVE THE WATER LEVEL. MR. McNARIE HAS FOUND FLINT PRO-
JECTILE POINTS IN THE IMMEDIATE AREA, SOME IN THE CREEK
BELOW THE SITE. ALSO FOUND IN THE CREEK A MOLDED CLAY
PIPE WHICH IF IT CAME FROM THE SITE MAY HAVE BEEN A TRADE
PIPE.

IT IS PROBABLE THAT THE SITE EXTENDS ^{SOUTHWESTWARD} ~~SOUTHWARD~~ ACROSS
THE TURKEY ^{BRANCH} CREEK FOR SOME DISTANCE, ALTHOUGH NO VISIBLE
INDICATIONS WERE APPARENT DUE TO DENSE VEGETATION AND CAVING
OF THE OPPOSITE BANK.

*Mr McNarie reports that the sand
bar below the above described site has
by now washed away and exposed
another line of high stone some three
feet below.*

JANUARY 21, 1966

MR. McNARIE REPORTS THAT THE SAND BAR BELOW THE
ABOVE DESCRIBED SITE HAS BY NOW WASHED AWAY AND EXPOSED
ANOTHER LINE OF BURNT STONE SOME THREE FEET BELOW.

CAMP RUBBLE IS FROM 4 TO 5 FEET BELOW THE TOP OF THE
ERODING BANK AND STARTS FROM 2 TO 3 FEET ABOVE THE
BRANCH BOTTOM AT THE TIME OF THE FIRST DIGGINGS. Mr.
McNARIE HAS FOUND FLINT PROJECTILE POINTS IN THE IMMED-
IATE AREA, SOME IN THE CREEK BELOW THE SITE. ALSO FOUND
IN THE CREEK A MOLDED CLAY PIPE WHICH IF IT CAME FROM
THE SITE MAY HAVE BEEN A TRADE PIPE.

IT IS PROBABLE THAT THE SITE EXTENDS SOUTHWESTWARD
ACROSS THE TURKEY BRANCH FOR SOME DISTANCE, ALTHOUGH NO
VISIBLE INDICATIONS WERE APPARENT DUE TO DENSE VEGETATION
AND CAVING OF THE OPPOSITE BANK.
