Today was clear most of the day and what started out as a dreary day changed just before noon and wound up a beautiful day except underfoot. The temperatures were low 22° high 37°. Peg + I took a short drive this morning down around Lake Contrary + then up on Wyeth Hill where we could look over Browning Lake at the St. Joseph Airport. I then worked in our breezeway all afternoon.

(over)

Today was cloudy, cold, and windy until about 2:30 P.M. when it cleared off + warmed up a bit. Leo Halloway picked me up at 10:30 A.M. and we headed for Lake Jacomo. We arrived there shortly after noon. We circled the lake but we were surprised and disappointed at the small amount of waterfowl. We left there about 3 P.M. + headed back toward St. Joe. We stopped on the way back at Bean Lake, Sugar Lake, Mud Lake, Muskrat Lake and Horseshoe Lake. We got home at 5:15 P.M. Temperatures were low 15° high 35°.

Today has been cloudy, windy and rainy all day. Kenneth Jackson picked me up at 7:30 a.m. We drove to Krug Park but the gates were locked and we couldn't get in. We then drove to Lake Contrary, Mud Lake, Muskrat Lake, Horseshoe Lake and then drove back to St Joe & over to Browning Lake at the airport. Leaving there we drove to Sugar Creek. We couldn't get around on any of the roads there because the gates were locked due to Muddy Roads. We were back home at about 12:30 p.m. where I stayed the rest of the day. It has rained all day. Temperatures low 33° high 48°

Today was cloudy & cool & damp all day. The temperatures were low 43° high 48°. Pearl & I drove to Honey Creek area this morning. We were gone for only a short time. Pearl heard a Towhee but I missed it. Leo called me about 2:30 P.M. He had gone down around the lakes & the asphalt trail at around noon & he found four species of birds (Red-br. Merganser, Purple Martin, Savannah & Lincoln's Sparrow) that I don't have yet for the year. Pearl & I made a quick drive down to Lake Contrary, Muskrat and Horseshoe Lake but we failed on all of them.

Today was a very surprising day. The forecast during the night was for thunder showers, rain + cold. When I got up this morning it was clear and 38°, not as cold as had been predicted. Ken Jackson came by + picked me up at 8 A.M. We went to Krug Park first, then down to Bluff Woods + from there around Mud Lake, Myskrat Lake, Horseshoe Lake, Lake Contrary and then over to Browning Lake at the St Joseph Airport. I was back home shortly before 2:30 P.M. The temperatures were low 38° high 57°, I stayed home the rest of the day.

Today was clear, cool and real nice. Leo Galloway and I birded together today from 7:30 AM until 1:30 PM. I drove. We started at Krug Park, then to Browning Lake at the St Josephs Airport and from there to Lake Contrary, Mud Lake, Muskrat Lake, Horseshoe Lake, Bluff Woods and back home. Temperatures today were low 26° high 50°. I stayed home the rest of the day.

Today was clear, cool and nice until about 10 a.m. when it clouded up. It was cloudy, windy and chilly after that. The temperatures were low 29° high 58°. Pearl & I left home at 7:30 a.m. & headed for Squaw Creek. We stopped at Honey Creek on our way up. We met Leo Galloway at Squaw Creek. We left there at 12 Noon and headed for home. We brought an injured American Kestrel back with us and took it to a Veterinarian who takes care of injured birds for Squaw Creek.

Today was clear, rather cool and real nice ~~at~~ up until about 11 A.M. Then it clouded up some and got pretty windy. Kenneth Jackson picked me up at 7:15 P.M. We birded first in Krug Park for about an hour and then drove through the Oxnard flats & then to Honey Creek Wildlife Area and from there on up to Squaw Creek. We were back home at 3 P.M. Temperatures today were low 28° high 53°.

Today was partly cloudy, windy and warm. Temperatures were low 35° high 62°. Pearl & I took our ride this morning around the lakes and the walk in Bluff Woods. We were home by 11:15 A.M. where I stayed the rest of the day except to drive out to my brother (Stella) house to see him. He is very laid off. If he lives for a month I believe that I will be surprised. His name in full is Clyde Steele Lawhon. He is the next brother younger than I. His birthday is February 8th. Born in 1917.

Today was a beautiful day for birding. It was clear all day, pleasantly warm and not a lot of wind. Pearl + I birded 7:45 AM. until 7:45 PM from home to Honey Creek, out east of town, up the Missouri River Road + to Spoon Creek. We really enjoyed it. This was the first day in 30 years of birding that I have ever seen as many as 80 species of birds in one day during the month of March. The temperatures today were low 35° high 66°. On leaving the refuge this evening we counted 116 deer. During the afternoon we saw a coyote out in the middle of northwest pool carrying a muskrat. We saw lots of muskrats and turtles today. A lot heard many frogs.

Today was cloudy and windy all day. This afternoon it was real stormy. Hard rain, some hail and strong winds up around 50 to 60 m.p.h. Pearl & I went out to the St. Joseph Hospital at 1 P.M. to see my brother Steele. He certainly looked very bad. Mary, his wife had taken ~~his~~ his dentures out because they began coming loose in his mouth. That made him look worse. His eyes were closed all the time and sunk way back in his head. The nurses in checking him this afternoon said that he was getting worse fast. Pearl ~~and~~ had planned on staying only about an hour but when we saw how fast he seemed to be failing we decided to stay. I'm sure glad now that we did because he died just shortly after 4 P.M. Steeles wife Mary, their son Gary, Marys mother, Pearl & I, my brother Norman and my sister Jeanetta were all in the room when he finally passed away. I had gone after Jeanetta just about half an hour before that to bring her to the Hospital. Temperatures today low 30° high 75°

My plans were not to go out today at all because of Steele's death yesterday. I had told different ones to call me if I could help in any way. Ken Jackson came by at about 8 A.M. He had just seen what he was sure of as a Chestnut collared Longspur out on the Mitchell Ave Road. Realizing how rare it was for Missouri he came after me. I went back with him telling him I had to be back in an hour's time. When we got there we saw a few odd small birds moving about and one small flock of small birds. I could never get good enough a look to identify any as longspurs. Finally we had

to leave. The way he described it to me I feel sure that it was a Chestnut collared Long spur. He said that he was watching about six Lapland Long spurs in the road just a little way in front of his car. He noticed that one was different than the others so on examining it closer he realized that the noticeable difference was that the black on it covered all of its front, and down on to the belly. He then noticed that it had yellow on the white of the birds face. Then he checked his book and realized that it wasn't a Lapland but a Chestnut collared. I spent the rest of the day at home and at the Funeral Home. Today was clear and cold, Windy this morning. Temperatures today were low 26° high 54° Probably what brought the Longspurs here was the strong winds. We had winds 50 to 60 m.p.h. in the St Joseph Area. Winds were clocked at around 70 m.p.h. in Kansas and winds of 140 m.p.h. coming down out of the mountains in Colorado.

Today was clear, a bit windy and cold all day. The temperatures were low 28° high 45°. This morning Pearl & I were out for about two hours. We went mainly to the Mitchell Ave Road area especially in hopes of seeing the Longspur but apparently it is gone. After dinner we went to the Funeral Home where we stayed until 8:30 P.M.

Today was cloudy, windy & cold all day. Temperatures were low 28° high 38°. I made the drive this A.M.

around the lakes by myself. I got home at 10:30 a.m. The car was so muddy (we had rain this a.m. early) I had to take it out and get it washed. After lunch Pearl + I went to the funeral home where we stayed until 8:45 P.M. It is going to be cold this night.

Today was cloudy, windy and cold. The temperatures were low 29° high 36°. I took the drive by myself while Pearl was baby sitting with Chad and Raygan. I got back home at about noon. I am feeling this afternoon & evening like I am catching the flu. Many people have had it this late winter & early spring.

Thursday, April 8, 1982

16	Pine Siskin	3	X
17	Dark eyed Junco	1	X

This was another day of my staying home because of my being sick with a cold or the flu. It would have been a beautiful day for birding. It was clear, a bit windy, & decently warm for actively birding. Leo Galloway, Ken Jackson & Mike McKenzie went to Squaw Creek this morning. They saw two eared grebes, two cinnamon teal (for which I have been looking for, for the last five weeks and a Black crowned night heron. Temperatures today were low 30° high 58°

Today will be a day of birding I will remember for a long time. A host three weeks ago I promised Si Raczky that I would go birding with him all day Easter Sunday (today). I was feeling a long way from good this morning and I really wanted to get back in bed. I didn't have the heart to tell him I couldn't go so when he came by for me at 7 a.m. we took off. We went to Lake Contrary first where we took a little short walk. From there we went to Mud Lake, Horseshoe Lake, Muskrat Lake and Bluff Woods. We walked the asphalt Trail at Bluff Woods. From there we drove out Mitchel Ave Road and then out in the Cook, Road area. Then it was 12 Noon so we went by Si's
