Today was clear. Nice this AM but pretty warm this afternoon. The temperatures were low about 56° high about 86°. I took my hours walk in King Park this morning. It amounts to about one mile. I took Lois to work and then I drove to Honey Creek where I took a nice walk. I enjoy walking and birding in some areas are better that way. It is 1.25 miles from the entrance at Honey Creek to the last parking area where I walked to and back making the round trip 2.5 miles. This evening I drove to Squaw Creek where I hoped to see King Rail and/or Least Bittern but was disappointed on both. I have always wanted to walk the road way dike completely around the main pool at Squaw Creek. I checked the mileage on it this evening. It is 10.3 miles. For me that would be half a day.

Today was clear and nice. Cool this A.M.
 & warm this P.M. at 7:30 AM Pearl and I took

off & headed for Tuttle Creek Reservoir near Manhattan Kansas. From home to the middle of the bridge crossing the Reservoir on highway 16 it is 123 miles. There are faster ways of getting there but we went south out of town through Atchison Kansas and then west on Kansas State Highways 116 + 16 because there is very little traffic on them and we could be more at ease and see more birds. It took us just over 2 1/2 hours to go over. One of our purposes was to look for Scissor-tailed flycatchers. We drove on across the reservoir & west on highway 24 several miles before we found our first bird. It turned out to be a family of four. We then turned around and headed back. We found another family of four a few miles back that we had passed. We stopped at the reservoir again for a while & found one more Scissortail east of Tuttle Creek on our way home. Arriving in Missouri we stopped by Sugar Lake for a while. We then got home about 4:20 P.M. Temperatures for the day were low 62° high 91°

This evening Pearl's sister Alice had a surprise birthday cook out for me. The food was delicious and plenty of it. This month just past was the second coolest August on record. Average temperature was 71°, 6½ degrees below normal. The high was 92° and low was 43°. Rainfall was .79 for the fourth driest August on record.

Today was cloudy + rainy all day. I took a 30 minute ride 11:30 a.m. to 12 Noon near wse and except for going + coming from work that was the extent of my birding. In late August our local radio stations and newspaper had a news item of approx. 2000 Purple Martins being killed by persons using shot guns on the Capitol grounds. Some of the broadcasts stated that Governor Hearnes himself had given the order to "Get rid of the birds". Dave Easterle wrote a strongly worded letter on Sept 1st stating his views as President of the State Audubon Society. This evening as a Director of the State Audubon Society I also wrote a letter asking that all guilty persons involved be prosecuted. Temperatures today low about 62° high about 79°
