Today was cloudy, rainy & dark all day. The temperatures were low about 34° high about 44°. Last (over)

evening Harold Burgess called me to tell me that seventeen Whistling Swans had been seen at the Refuge. He hadn't seen them himself but he did find a crippled Swan in the creek on the Refuge. Several of us spent quite a bit of today looking for the Swans but no luck. Burgess told me that 1000 Lesser Scaup had been counted earlier in the week. They also have an immature Golden Eagle that is crippled by a hunters gun.

41. Song Sparrow	1	SR

Today was clear + cold but nice. The Swan Creek area was completely frozen over except for about four small areas where the sheer numbers of ducks + geese kept it open. I would probably have missed the Swan if Pearl hadn't seen it. Several of my good birds were found first by Pearl. I found the Ross' Geese because after so many years I know just what to look for. Temperatures were low about high about. Left home 8.50 am. Arrived back home about 5 PM.

Today was mostly clear & cold. a bit windy. Early it was icy and slick but during the afternoon it broke up pretty good on most streets. Our original plans was to take our St Joseph Xmas Census today but late last evening we were having a freezing rain and a 2 to 4 inch snow was in the forecast so we postponed it until Sunday Dec. 29th. I hope we didn't goof. The forecast is for a nice day tomorrow. Temperatures today were low 16° high 22°.

Sunday, December 29, 1968
