Today was mostly cloudy and cool. The temperatures were low about 61° high about 82°. Overnight we had another 1.50 inch of rain. Being without my own transportation through the week is sore cutting down on my birding. We wound up July with 7.21 inches of rain. We now for the year have 19.03 inches which is just a bit below the 21.31 inch normal. That means that just 2 weeks ago we were nearly 10 inches below normal.
