We left home this morning at 5 a.m. We ate breakfast at Lexington, Mo about 7:15 a.m. & arrived at our camp at Rising Sun in the Ozark State Park. It was about a 250 mile drive. Pearl, Larry, Tom Jeffers and I made the trip. I drove Tom's car. It was cold, about 32° this a.m. Clear & nice at mid day at camp but cold at camp this evening. Larry & I even put on our insulated underwear.

I had quite an experience this afternoon while the gang at the wholesale was listening to the World Series Baseball game. I decided to take a little ride up the Ameziona road toward Savannah. I got just about 5½ miles from home and I ran out of gas. I was near the railroad tracks so I walked all the way home. I got home at 4:55 P.M. Lois took me back later after supper with some gas.

This was no doubt my worst Saturday in a long time. The weather was hot & I didn't really care to go out. I was getting ready to go and something happened to the door on the truck so I spent about an hour working on it and then I spent the rest of the day watching football on television

Pearl + I left home 11:30 a.m. for Squaw Creek. John Hamilton, Dave Easterla and Dick Anderson had gone up earlier in the morning. Burgess had most of the area already roped off and wouldn't let anyone on the park except what could go with him in his car. Dick Anderson had never

been over the area to Pearl & I come on back home. I guess that Squaw Creek is off limits now until after the first of the year. It seems like if Kenneth Krumm could let us on the area during hunting season then Burgess could also. Today was mostly clear and warm & a bit windy.

Pearl & I birded all morning 8:20 am till about 11:20 a.m. at Kopp Park & then drove through Ashland Cemetery. We then ate lunch and at 1:30 P.M. Pearl & I took off with John & Julie Hamilton. We first drove down to Lake Contrary and then drove out past Stewartsville, Mo. where the Missouri Conservation Commission is constructing a new hunting and fishing area. It is going to be a very good birding area if today samples are any indication. I marked it PEL because I have heard that they are going to call it Pony Express Lakes Wildlife Area. We stayed until dark. Today has been warm, dry and very dusty. I caught a red sided garter snake in Kopp Park this morning and we saw quite a few butterflies throughout the day.

It was apparent early this evening that Lyndon Barnes Johnson had won the presidential race by a land slide majority over Barry Goldwater. We had a real nice rain this evening.

Wednesday. November 4, 1964

We had about 2½ inches of rain last night which is probably as much as we have had during the past six weeks.

This evening Pearl, Larry, Tom Jeffers and I went to a Conservation Meeting down town at Christ Church. There were four Wildlife agents on the program. Verdel Burgess was one of them. He told me that he had checked a hunters bag yesterday and found that the hunter had shot a Sandhill Crane. He also told me that about 8 of the Cranes had been seen in the area. I also found out that the Pony Express Lakes near Stewartsville and due to open Jan 1, 1966.

Yesterday evening completed the week long deer hunting season in Missouri. At the end of the week there were 20,605 deer reported killed. This does not count 20 counties where there was a Bucks only take nor does it count many deer killed by farmers on their own property. I guess our Indian Summer is over. It is now 18° outside and the forecast is for a low of about 5° by morning

This morning I was too tired to take my walk so I used Ford' car & drove east to the Pony Express Lake then south on hiway 33 to 116 then west on hiway 116 to south of St Joe & then home. We were gone only about 3 hours & 15 minutes. It was cloudy, cold & a bit windy with snow flurries.

* Late this afternoon I saw several flocks of ducks, probably Mallards overhead at home about 4:30 PM to 5:30 PM flying Nw. to S.E. I estimated 2000 or more birds in a dozen or so groups. I birded by myself all day today. 9 AM to 12 Noon at KP - Nw. bvd & Ashland Cemetery. After lunch I drove to the airport & then to Lake Cornbury & then through Amazonia hills to Savannah & back. Got back home about 4:30 PM. Clear & crisp. Low about 22° High about 42°. All ponds & Lakes are frozen over.

I forget to mention which areas each of us covered on our X mas census. Pearl & I covered Krug Park, Tumbleweed (NW Blvd) along Northwest blvd., Ashland Cemetery and the three different roads running between St Joe & Amazonia. We sometimes call them Amazonia Heights, Amazonia Flats & the Dove Valley Road. John & Judy covered area around the St Joseph Country Club, River Road from county line south to Mo. River bridge, Browning Lake, Lake Contrary and Mitchel Avenue Road area east to 10th River.
