Today was cloudy & cool all day. It was a perfect day for birding. I got up at 7 a.m. At 8 a.m. Dad & I headed for Squaw Creek, stopping by Honey Creek on our way up. We ate some snacks there with coffee. We got home at 1:30 p.m. Lois, Larry and Chad were here when we got home. I spent about all evening putting a coat of primer on the east end of our house. At Squaw Creek we saw three doe deer and each one of them had twin fawns. Temperatures today were low 63° high 86°.

Today was mostly cloudy with some rain. Fair most of the afternoon. Temperatures were low 66° high 80°. Pearl + J

took a short ride this ~~afternoon~~ morning through Ashland Cemetery + out east of town. Tomorrow being my 65th birthday Lois had a surprise dinner for me today. Larry, Mert, Chad + Ragan were up also.

Today was partly cloudy + nice. The temperatures were low 59° high 80°. I got up at 7:19 a.m. at 8:30 A.M. I picked up Marcella at her home + took her by her moms and then on down town to work. At 1 P.M. I drove out on Mitchell Ave near the Belt highway + picked up two of Lois' dogs + brought them home and then at 2:30 P.M. I went back down

town + picked Marcelle up + went by her mom's where we picked up Ragan + then I took them to their home. At this time Pearl was asked to meet a school bus + take a little girl off the bus for a neighbor of ours across the street while she made a rush trip to her mother's house where her step dad had something wrong with him. Other than that I + Pearl have been busy all day scraping off old paint from our house and painting it with a primer coat. I am really tired tonight. Tomorrow we hope to finish with our scraping and most of our primer coat painting. Then we will be ready to put our regular house paint on.

Of the 200 Robins I have listed I counted 173 of them flying over head in 32 minutes. They were all flying in the same direction toward Ashland Cemetery. Temperatures today were low 62° high 88°. Pearl & I worked until P.M. scraping old paint & painting with a primer coat. We are not completely through with that but our next job will be painting with our final coat. I had my car worked on today & had a set of front disk brake pads put on and a set of front grease seals & repacked front bearings.

Today was mostly clear + cool A.M. but pretty warm P.M.
 Temperatures were low 68° high 85°. Late last
 night + early this morning we had quite an electrical
 storm. I had 1.15 inches of water in my rain gauge.
 Because of that we didn't paint this morning but
 we did this afternoon.

~~2~~ Today was partly cloudy, hot and humid. The temperatures were low 74° high 91°. We had another thunderstorm during the night. Only about .33 of an inch of rain. I had planned on getting quite a bit of painting done today but we wound up with a minus in painting. ? Some of the paint we put on yesterday afternoon & evening was blistered today. We couldn't figure out why. We called Penneys. They sent a man out. He checked it but couldn't figure out why so he took seven gallon that we had here & brought us seven more gallon of a different batch. Same color.

The 7 Pintail I saw flying from west to east I saw from my back porch was my first ducks from home this fall (late summer).

To day was clear + cool a.m. but hot this afternoon. Pearl & I left home at 7 a.m. & headed Squaw Creek. We stopped off at Honey Creek on our way up. We arrived at Squaw Creek at 8:20 a.m. There we met with a large group of birders from Kansas City. There were 25 cars that I know of and there were about 80 of us. Harold Burgess and Chris Hobbs led the group. Pearl & I birded a part of the time by ourselves. We left there shortly after 3 p.m. & got home at 4 p.m. We are still having trouble with our paint. Now the new paint that I put on the east side of our house has blistered. They are going to send a factory representative here Wednesday. The temperatures today were low 63° high 88°.

Today was clear and hot. The temperatures were low 70° high 88°. Pearl & I left home at 8:20 a.m. & headed south & east. We went mainly to see how they were coming with the Smithville Lake area. The way it looks now it will be two years yet before the area is open. Originally it was to be

opened up this fall but they have a long way to go. We got home at 12 Noon where I stayed the rest of the day.

Today was clear + real nice after thunder storms early morning hours with some rain. Temperatures were low 67° high 84°. This morning we returned our paint to Penney's for credit. We are going to by an oil based paint from a store near here. We are now going to go with white where we had planned on using a spanish olive in latex. We then stayed home the rest of the day.

Today was clear + nice. A bit warm in the sun but wonderful in the shade. Temperatures were low 62° high 87°. Pearl + I worked at painting our house this morning from 8 A.M. until 12:30 P.M. We painted the front of our house + I painted the overhang on the south side of our living room. We are now using an oil based white paint. We were so tired when we finished lunch we just cleaned up + loafed the rest of the afternoon. This evening we went to Central High School to see our first Audubon Lecture of the new season.

This was a beautiful day. It was clear all day & cool. Temperatures were low 41° (38° on my thermometer) and high 76° . We got up & took a holiday today from our painting. We left home at 8 A.M. & headed for Squaw Creek. Naturally we stopped by Honey Creek on our way. We just took along some snacks & coffee. At the S.A. refuge we saw four deer and two coyotes. We got back home about 3:40 P.M. I drove a total of 90 miles I was certainly surprised at some of our late birds. The Chatcatchers were my latest ~~date~~ date by two weeks. I have only one later record of the Chat which is Sept 20, 1964. My Orchard Oriole today was my latest date by one day. I have only two later dates for Northern Oriole, Sept 16 & 20. This does not count the very unusual date of Dec. 2nd 1970 for the ^{Oriole} ~~Chat~~ Peel & I saw at our home. The Chickadee seemed late although I do have 5 later dates, two of them in October.

Today was mostly clear, a bit hazy this afternoon
 Temperatures were low 51° high 80°. We
 painted again all day today. I will sure be glad

when I can say well at last we are through.

My biggest surprise in a long time was to look up this afternoon + see the Peregrine Falcon. I was at the top of a ladder painting the gutter at the back of our house + glanced up and saw a flock of about 30 to 40 birds, black birds or starlings milling around in a circle. Knowing how they will do just that when bugging a hawk, owl or crow I looked closer + saw the hawk. My first thought was that it was a Cooper's or Sharp-shin. I came down the ladder in record time + grabbed my binoculars which I had on a table near by. By that time the birds had turned and came right over my head. By that time the hawk took off in a straight line + left the other birds behind. I saw then that it was a Peregrine Falcon. Many of the birds I see from my home I list as o. h. X which is short for over head at home. Really many of the birds I see are over head at home such as today the Night hawks, Swifts, Red head Woodp. & Cowbirds.

When I mark o. h. X it is mostly to put emphasis on that particular bird.

I also painted both storm doors. The yellow-rumped (Myrtle) Warbler I saw this afternoon out in one of our Birch trees was my earliest fall record by 2 days.

Today was clear + real nice. The temperatures were low 51° high 80°. Pearl + I left home at 8 am for Squaw Creek. We stopped at Honey Creek on our way up. We got home at 2:30 P.M. After eating a snack at 5:30 P.M. we took a short drive through the Cemetery. I was taking a walk in some timber + heard the Canada Geese call as they flew over. Pearl who was in the car saw them + counted them. I marked the Soras

as 100+ (heard). I feel safe in saying that there were actually thousands of soras. There is probably 15 or so miles of shore line around the pools and they are all covered with dense vegetation of Cattails, Millet, Smart weed, Arrowhead and Lotus lilies. Just about anywhere at all I could stop, toss in a rock or clod of dirt and anywhere from 5 to about a dozen soras would call. We saw one two point buck deer.

Today was the day. As was quite the usual thing when I was working regularly I was the first one there. This morning ^{I was the first one there.} It was really quite pleasant today meeting so many old friends & visiting with them again. I was there from 6:50 a.m. until 4:20 p.m.

Today was clear and warm. The temperatures were low 52° high 86°. Pearl went to the beauty shop this morning and out near Hamilton, Mo. this afternoon with Lois so I had practically the entire day to my self. I started painting the wrought iron railings about 8:30 a.m. & finally finished them about 1 P.M. I then painted some of the storm sash's on my front door and back door. Then I worked at hulling walnuts from 2 P.M. untill about 5 P.M.

windows on the north side of our house and painted one coat on half of the east end of our house. Now except for the concrete block foundation walls completely around our house the only painting left to do is the east side of our house. We can do that with two coats in two days and then we will have seven windows and one door on the east side.
