

15 Song Sparrow

5

86

Today was one of the nicest days I have ever seen. That is, to suit me. It was clear and cool all day with a cool pleasant breeze all day. I got up at 7:30 a.m. ate breakfast & then took a ride through Kong Park, out east of town, through Ashland Cemetery & then back home. At about 10:30 a.m. Pearl & I drove to Squaw Creek. We made the rounds then & came back home at 2:30 P.M. Temperatures today were low about 57° high about 78°

Today was clear & pleasant. The temperatures were low about 50° high about 78°. This afternoon I took Pearl out to the "Eye Clinic" to have her eyes examined. The news wasn't really good. She has a Cataract on each eye. Because of the type that it is he would ~~not~~ prefer not to operate unless it became absolutely necessary. The 50 this morning was a record low for this date.

Today was clear & cool. Really a beautiful day. The temperatures were low about 60° high about 76°. I worked until noon, then after lunch Pearl and I drove to Squaw Creek. We left home at 12:30 P.M. & got back home at 4 P.M. I saw probably 100+ shore birds at Squaw Creek but they were too far away to identify. I stayed home the rest of the day.

Today was clear, hot and humid. The temperatures were low about 69° high about 93°. As of this time Pearl, Lois and I are tentatively planning on a weeks trip to Colorado the last week in August so I am working now on a look for list of Colorado birds. If I only had an expert from that area to spend 2 days with me.

Today was clear and hot. The temperatures were low about 78° high about 94°. I did not work today so early this morning Pearl and I took a drive down around the lakes then back home by way of the boulevard and on home. It was so hot I stayed in all the rest of the day in air conditioned comfort watching television. This evening a neighbor boy brought us in a baby wood duck that they had found in their yard. They have several children and some cats so we finally wound up with 8 baby wood ducks. I finally got hold of Richard Bohanan a conservation agent. He told me to wait until dark and then take them back out and turn them loose where they were found. He said that after dark the mother would come back for them.
