Today was cloudy, windy & chilly all day. The temperatures were low 36° high 48°. Pearl & I left home at 8:10 a.m. and wound up at Squaw Creek at 10:10 a.m. From home we drove through Krug Park, then Aschland Cemetery, then out east of town, then on to the I 29 highway and on up to Squaw Creek. On our way back home we drove into Honey Creek. We got home at 4:10 P.M. - Nanette Johnson had called this afternoon & Lois answered the phone here. The Hoary Redpoll had come back again this morning. I would like to go down tomorrow morning but I don't know if I will or not. The forecast is for a low in the 30's and rain. I have to call Nanette yet.

L. J. - Lake Jacomo in south east Kansas City, Mo

Today was partly cloudy, real warm early morning until mid afternoon, then began getting colder. Pearl & I got up at 4 a.m. ate breakfast and then at 5 a.m. we headed for Kansas City, Mo. to try again for the bird tentatively identified as a ~~Noary~~ **Redpoll**. The bird has been coming to feed on thistle seed at the home of Ivan W. Tulton at 13108 East 44th Terrace. It is just three block north off of Highway 40 about 3/4 of a mile east of the Blue Ridge Mall at the intersection of Hwy 40 and Interstate 70. Pearl & I arrive there at 6:20 a.m. It was too dark at that time so we sat in the car until 6:40 a.m. when it began getting light. Jim & Mary Louise Myers were putting up mist nets. They caught a lot of Goldfinch & Siskins. The Redpoll came in at 7:15 a.m. and stayed on the ground feeding for at least 5 minutes. The bird

definitely is much lighter than other Redpolls I have seen. It is lighter over all and has much whiter rump & under tail coverts than any other Redpoll I have seen. There was too much activity there so at 8:15 Pearl & I left and drove to Lake Jacomo. We bided there awhile and then drove to Pleasant Hill, Mo. where we drove through town & went to the Cemetery where her Mom & Dad are buried. We then came back and drove to Lone Jack, Mo. where one battle of the Civil war was fought. From there we came back to Lake Jacomo and bided for about an hour, then drove over to "Missouri Town 1885". It is a bunch of old homes, outhouses & buildings of all descriptions brought in & set up like a little town. They are all of about 1885 vintage. After leaving there we drove back by the Jultone home. No one was there. There were siskins & goldfinch feeding but we did not stay. Instead of coming up Interstate 29 to St Joe we drove northeast up ~~Interstate~~ Interstate 35 to Cameron, Mo stopping off at Wallace State Park for awhile. I am tired this evening but I have the pleased feeling of having accomplished something. The temperatures today were low 37° high 51°. We finally got home at 5:30 PM. I called Leo Galloway & John Hamilton this evening to pass the word on to them. Maybe they can go down this weekend.

Wednesday, March 3, 1976

17 Dark eyed Junco	10	X - 0
18 Tree Sparrow	30	0
19 White crowned Sparrow	1	0

Today was cloudy and rainy all day. The temperatures were low 30° high 34°. During the ^{early} morning hours and on into the day we had a regular ice storm with rain, freezing rain and sleet. Because of the icing on limbs we lost several large limbs out of one of our trees which tore down our television + telephone lines into our house and tore down a section of our chain link fence. Also one of our tallest cedar trees, about 30 feet high was uprooted because of the excess weight of ice on limbs.

Friday, March 5, 1976

1 American Kestrel	1	0

Today was clear + pleasant all day. The temperatures were low 27° high 53°. I was still tired out from ^{my} work Friday evening and yesterday at cleaning

up our ice storm damage. I slept until 7 AM today. Pearl + I took a morning drive to Kong Park, down around the lakes, back home by way of the blud. and through Ashland Cemetery. We got home shortly after 11 AM. Dick Anderson called me at 12 noon and said that they had a California Gull at St. Louis today. I was really tired to go. I called Leo, Hoot + Dave Easterla but no one went over.

Monday, March 8, 1976

Today was clear and nice. The temperatures were low 38° high 47°. This evening after work I drove over to the St Joseph airport with David Freeman. He is a young man I work with at the Wholesale. He was raised there in a house only about 200 yards from one of the runways at the airport. His mother and two Uncles, Harvey and Lloyd Dupree still live there. They own several hundred acres of farming ground there and near their home they have access to a part of the old Missouri River Channel which is now a lake. It would be a wonderful place to live because of all the water area surrounding the area.

Today was partly clear + chilly. The temperatures were low 31° high 50°. I got up this morning at 5:30 a.m., ate breakfast + then headed toward Squaw Creek at 6:15 a.m. I was to meet Tim Barksdale there. He is a young fellow from St. Louis, Mo. On my way up I stopped at the Davis roadside park near Honey Creek. I played the Screech Owl call on my tape-recorder trying to call in a Screech Owl but I didn't get any to respond but I was much more repaid when a group of nine evening grosbeaks flew into a tree over my head. They were my best birds of the day.

Today was clear & chilly but real nice with about 3 inches of snow on the ground. Much of the snow melted during the day. Temperatures

were low 15° high 40°. Sunday evening at 7:15 P.M.
 John Hamilton called me to tell me that he had been
 hearing woodcock at his home. I drove out right away
 but they had stopped calling. This evening Leo Galloway
 and I drove out and at about 6:45 P.M. we heard
 and saw our first bird. We saw what we
 believed to be 4 different birds and heard at least
 2 or more birds calling. This went on for only
 about 15 to 20 minutes. It was a new experience
 for both Leo and I. When we saw the birds
 in flight it was their mating flight + calls.

Today was clear, & nice but chilly. The temperatures were low 35° high 54°. I got up at 6 A.M. and then at 8 A.M. Pearl, Chad and I left home & headed for Squaw Creek. My best bird was the Evening Grosbeak at the same place I saw them last Sunday morning. They really responded to the Screech Owl from my tape recorder. We got back home at 12 Noon. Then this afternoon Pearl, Lois, Chad and I took a drive down around the lakes and through Bluff Woods.

Today was cloudy, windy & cool all day. Temperatures were low 50° high 71°; This was our evening to drive to Helena Mo. We got home at 5:10 PM. We had just got in when the telephone rang. It was Mrs Galloway. Leo had called her from Quaw Creek to tell her he had just seen a Barnacle Goose at the Refuge. I hurried on up even though it was getting late. We left home at 5:17 PM and was on the Refuge at 6 PM. I didn't

see Leo or the Goose but from his description and distance at which the bird was seen I feel sure that he did see a Barnacle Goose. Whether or not it is an escaped bird remains another question. If it should show up tomorrow they are to call me at work. I sure hope that it does.

Today was mostly cloudy, very windy and chilly. The temperatures were low 47° high 64° . I got my call today at Noon. I drove to the refuge directly from work. The Barnacle Goose was feeding in a green field (wheat or rye). My directions were to drive up I 29 to Mound City, Mo., then west on State Highway 118 through Bigelow for about a quarter of a mile to Hurry P. Then left (south) on P to where it curves. Instead of curving you stay straight ahead south for about 2 to 3 miles. On the left near a wire corn bin there is a green field (wheat or rye). The birds were feeding here. Leo was there waiting for me. We watched the bird for awhile and then it flew away with some Canada Geese. About two hours later I went back and found it again to show it to Kay Wahl & a lady friend of hers. The bird is in very good color and seems to be very active & wary. We saw it rather close (about 100 yds) at one time. I feel certain that the bird had no leg band at all. I stayed around

for awhile and got home about 5:30 PM. Leo got a picture of the Goose but he is afraid that with his equipment he was a bit too far away.

Saturday, March 27, 1976

1 Turkey Vulture	2	all birds here	
2 Red tailed Hawk	8	listed were seen	
3 American Kestrel	2	on Interstate 29	
4 Bob White	3	and Interstate 70

20 Cardinal	3		

Today was clear and pleasantly warm. The temperatures

were low 40° high 66° . I got up at 6 a.m. and then after breakfast at 7:30 a.m. I headed for Columbia, Missouri to Dr. Bill Goodges home where there was a meeting of Officers and Directors of the Missouri State Audubon Society. There were twelve of us there. They were Paul Bauer, pres. of St. Louis, Dr. William Goodges, v.p. of Columbia Mo, Mrs. Katherine Wade of Jefferson City, treasurer, Mrs. Rebecca Matthews, Bluebird editor of Springfield, James P. Jackson, conservation editor of Washington, Mo., Elizabeth Cole, director from Kansas City area, Miss Bonnie Hunslop, director from Jefferson City, David Jones director of the St. Louis area, Dr. Keith Evans of the Columbia area, Lloyd Lawton director of the Northwest Missouri area, Mrs. Rebecca Matthews of Springfield Mo a director, Dr. Earl McHugh director of the Kansas City area, Dr. James H. Shaddy director of the Kirksville, Mo area.

David Easterlin director of Maryville and Edna Mae Kriege secretary of St. Louis were the only two who failed to show up for the meeting. It took me just four hours going down and arrived there at 11:30 a.m. at that I just poked along at times. David Jones of St. Louis rode back to St. Joseph with me as he wanted very badly to see the Barnacle Goose. We arrived back in St. Joe at 7:30 P.M. after

I did not work today. Dave Freeman & Todd Schroff worked

leaving Columbia at 4 P.M. I already had plans to go to KC tomorrow to show Lois, Larry & Mert some places that they are interested in so I let Jones out at a Motel on the Belt Highway. I then set about trying to find a way to Shaw Creek for him. It seemed that everyone was away from home or was unable to go. Finally I got my nephew Joel Lawhon to agree to take him. I drove a total of 370 miles today. It was 185 miles each way. I used only about ~~12~~ 12 of gas

25	Brown headed Cowbird	3	KP
26	Cardinal	16	X-KP-L.J.
27	Oak eyed Junco	30	X-KP-L.J.

Today was generally a miserable day. I got up at 6 A.M., ate an early breakfast. I then drove through Kong Posh & thru out to the Wholesale house at 9:30 A.M. Reed, Lois & I in Lois' car and Larry, Mert, Chad and Mike Redden in Mike's car headed toward Kansas City. Our intentions were to spend a lot of time at Lake Jacomo and the Civil War Memorial at Lone Jack, Mo. We made it to Lone Jack OK and then it began raining as we headed for Lake Jacomo. We had to share a shelter with some other young people while we ate our lunch. It was rainy, windy and cold. The temperatures today we have 45° high 64°. We got home at 4 P.M. We drove two miles

Monday March 29, 1976

1 Blue winged Teal	6	Route
2 Shoveller	10	Route
3 Lesser Scaup	20	Route
4 Redtailed Hawk	2	Route
5 American Kestrel	3	Route
6 Killdeer	1	Route
7 Rock Dove	12	Route

9 Common Flicker	3	Route
10 Downy Woodpecker	1	Route
11 Horned Lark	4	Route
12 Blue Jay	5	Route
13 Common Crow	3	Route
14 Robin	40	Route
15 Eastern Bluebird	3	Route
16 Loggerhead Shrike	3	Route
17 Starling	50	Route
18 Meadowlark (E) also probably W.	150	Route
19 Redwing Blackbird	60	Route
20 Common Grackle	500	Route
21 Bronzed headed Cowbird	30	Route
22 Cardinal	5	Route
23 House Sparrow	50	Route

With one route driver off sick today I drove in his place east on US 136 to Unionville, Mo. then down to Green City, Mo on Hy 6 + back to St. Joe. 289 miles

I got back to the Wholesale at 5:45 PM. Real tired.
 Temperatures were low 48° high 58°

Tuesday, March 30, 1976

Today was clear + windy, but warm. The temperatures were low 35° high 56°. I got a letter from Mark today.

1	American Kestrel	1	0
2	Rock Dove	2	X
3	Mourning Dove	6	0 - X
4	Common Flicker	1	bud
5	Hairy Woodpecker	1	X
6	Blue Jay	2	0 - X
7	Black capped Chickadee	2	X
8	Tufted Titmouse	1	X
9	Mockingbird	1	X
10	Robin	6	X
11	Starling	10	0 - X
12	House Sparrow	7	0 - X
13	Eastern Meadowlark	3	0
14	Common Hawk	15	0 - X
15	Dark eyed Junco	2	X

Today was clear + cool & windy. Pleasant after the weather we had Sunday + Monday. I am still getting calls about the Barnacle Goose. I sort of feel that the bird is still here even though I know of no one who has seen it since Saturday. 35-56

Wednesday - March 31, 1976

1	Rock Dove	6	0 - X
2	Mourning Dove	4	0 - X
3	Downy Woodpecker	1	X
4	Black capped Chickadee	1	X
5	Tufted Titmouse	1	X
6	Robin	5	bvd - X
7	Starling	12	0 - X
8	House Sparrow	10	0 - X
9	Eastern Meadowlark	2	0
10	Common Grackle	12	0 - X
11	Cardinal	1	X
12	Dark-eyed Junco	2	X

Today was clear, a bit windy & cool. The temperatures were low 35° high 57°. Les Halloway saw a Snowy Plover at Squaw Creek this afternoon. This evening we had an Audubon Screen Tour Lecture.
