To day was mostly cloudy, windy + chilly all day. Kenneth Jackson picked me up at 7:30 a.m. + he brought me back home at 6:15 P.M. We really covered a lot of ground today and we walked quite a bit. On leaving here we drove around part of the boulevard then up toward Amazonia, through the Amazonia flats, ~~up~~ up Monkey Mountain Road and on up the River Road to Forest City. From there to Squaw Creek where we spent most of our time. On leaving there we drove north + east to within about 10 miles of Maryville, Mo. + then on back south + west. We went through Honey Creek on our way home. Temperatures today were low 36° high 48°

15	American Goldfinch	1	X
16	Dark eyed Junco	3	X

Today was cloudy + light rainy all day. The temperatures were low 34° high 42°. Pearl went to the doctor this morning to have her finger taken care of. He took the pin out of it, but the finger has such a hump in it she then had to go to another place and get a brace to put her finger in. She was told that she would have to wear the brace for six weeks. Now I am doing a good part of the dishes, getting some of the meals and doing some of the house work I hope by April her finger will be well. I wouldn't be surprised though if they would break it over and reset it.

Today was clear + cold + windy. The temperatures were low 30° high 43°. I left home this morning at about 8:30 A.M. I travelled by myself today. Pearl's finger is giving her lots of trouble so she stayed home. I had already made arrangements to go to Squaw Creek today to deliver some papers to John Robinson. He is the colored boy from Iowa State College who is acting as assistant mgr. I went up Amazona Road to Honey Creek + from there up the River Road to Forest City. From there to Big Lake and from Big Lake to Squaw Creek. From Squaw Creek I came on home at 4 P.M.

Today was clear and nice with the exception of being to windy. Temperatures were low 30° high 65°. Pearl & I left home at 9:45 A.M. + drove to the Squaw Creek National Wildlife Refuge and of course we went the long way. We got home at 5:30 P.M. There is more water in the Refuge than there has been for at least a year.

Today was mostly cloudy, nice this morning but more cloudy and windy this afternoon and getting colder. Temperatures were low 44° high 62°. Pearl & I made our rounds this morning of the lakes. We left home at 8:30 a.m. & got back home at 11:15 a.m. The Great-tailed grackles in a mixed flock at Mud Lake really stood out. Seeing them next to Common grackles let us see how much difference there was in them. Pearl had seven more teeth pulled this afternoon. ~~She~~ She now has only four left and they are to be pulled a week from today.

Today was clear, windy and chilly all day. I took my drive down around the lake this morning by myself. I then stayed home the rest of the day. This evening Larry came up and put on a new set of rear shock absorbers on my car. It was almost 9 P.M. when he finally finished the job. We then took it on a short drive up the Amazonia road. It runs much nicer than it has been running. I believe now that the shocks have been my big trouble lately. I am sure happy with it. Temperatures were low 28° high 53°

Today was cloudy a.m. after a very light early morning shower. Pearl & I took a 2 1/2 hour drive down around the lakes. It was clear & nice this afternoon. The temperatures today were low high. Pearl had the rest of her teeth pulled this afternoon. She will now be without teeth for from 6 to 8 weeks. I certainly hope she gets along O.K.

Today was mostly clear, rather windy and warm. The temperatures were low 48° high 68°. This morning Pearl & I made a round of the lakes south west of town & thru Bluff woods and then at 4:30 P.M. we drove up to Honey Creek Wildlife area. The idea was to try for Wild Turkey and Turkey Vulture. We saw one Turkey just as we entered the area and later saw one bunch of 4 Turkey Vultures. Later we saw a pair of Vultures. They could have been two of the first four, I don't know. We stayed till almost dark.

Today was clear and windy and warm. The temperatures were low 41° high 75°. I stayed home all day today - I worked at cutting down an old apple tree in our front yards that we have had for 20 or more years. It has produced hundreds of bushels of apples. I sure hated to see it go. It had also gotten real big.

Today was mostly cloudy, warm and miserably windy and dusty. Ken Jackson picked me up at 8 A.M. and we birded from 8 A.M. until 1 P.M. We birded along a bit of the boulevard, thru Ashland Cemetery, east of town a couple of miles south of town about ten miles then back west thru He Kalu, Mo., then up thru Bluff Woods around Lake Contrary, by Horseshoe Lake, Muskrat Lake and Mud Lake and then to the Airport and back home. If it hadn't been so windy we would have gone on up to Squaw Creek. If we had then I think we would have had at least 10 species. The temperatures today were low 60° high 71°

Today was clear & nice & warm but a bit windy. Temperatures were low 41° high 75°. Pearl went to her finger doctor this morning and when I picked her up we made a quick tour of Lake Contrary, Muskrat Lake and Horseshoe Lake. This afternoon I made a tour of the same lakes and also added was Browning Lake at the airport. I made that round with Leo Galloway. Then later this evening I went with Leo in back of Missouri ~~College~~ Western College just off of Mitchell Ave Road to try for the Woodcock but it never did go through its evening mating ritual. *This afternoon President Ronald Reagan was shot in the chest & thru the left lung. He underwent operation immediately and this evening late he getting along fine.*

Today was clear, warm and nice. The temperatures were low 46° high 74°. I left home at 8:05 a.m. and headed for Squaw Creek I went there first and covered most of the area. Then I went to Big Lake and then on my way home I drove through Honey Creek Wildlife Area and got home about 4:30^{PM}. I banded all day by myself. It was a good day to go birding but I was disappointed in my days list.
