### ST. JAMES CHURCH

ST. JAMES PARISH was organized in 1900 by Bishop Maurice F. Burke to serve the “South Side” neighborhood of Saint Joseph. The present Romanesque style building, designed by the local firm of Eckel & Aldrich was built about 1912 at King Hill Avenue and Michigan. In 1915, the parish purchased a 7 rank tracker pipe organ from the organ firm of George Kilgen & Son, St. Louis. This instrument was rebuilt by Quimby Pipe Organs, Inc. in 1986, at which time several ranks were replaced in order to increase the organ’s tonal palette.

Interior of St. James Church

Interior, St. James Church, St. Joseph, Mo.  
Rev. J. D. O'Donnell, Pastor

Main Altar, Side Altars, Railing and Statues made of Regalico, specially designed and executed by  
Daprato Statuary Company, Chicago-New York
