Today was a wonderful day for bird watching. We were disappointed at so few warblers. Si Rositzky and I banded 7 AM till 10:30 PM. Bob Brown joined us at 1 PM + stuck until 10:30 PM. Harold Burgess joined us at 4 PM + banded with us until 8:30 PM. I was really tired this evening. Si and I did a lot of walking today. Much of it through mud, water and brush. Temperatures low about 49° high about 82°

~~88~~ Today was clear, cool and windy all day. Really it was a nice day for birding. I didn't start until 10 A.M. Pearl & I birded all day 10 A.M. until 8:40 P.M. We probably could have hit 100 species or more but we had made a mistake in our notes. At 10 P.M. I realized I had only 98 species so I drove to Honey Creek to try for any owl, a whippoorwill or Chukwill's widow. I didn't hear any of them. If I had I could have gone down town & heard the night hawk. Temperatures low about 55° high about 72°. I saw the Lark Bunting on the same fence and within a few feet of where I saw the scissor tailed fly catcher about two weeks ago.

Today was clear and hot. The temperatures today were low about 63° high about 94°. My noon day ride was short but almost every day Thursday evening Pearl and I drive to Helena, Mo after eggs. I go mainly just for the ride. It is about 20 miles each way the way I go by taking country roads. What I dislike most of all now is the hot sultry weather.

Today was clear and hot. The temperatures were low about 66° high about 100°. This evening Pearl and I made a trial run over our Breeding Survey Route, after turning up the Upland which was expected and the Bobolink which was unexpected I keep telling myself that I should make the drive more often than I do. We left home at 6:20 PM + got back home 9:35 P.M. about 87 miles total. All birds marked ✓ were on the BBS route.

The weather today was really variable. We had everything, too clear & warm to windy, cloudy, rain & cold. Pearl & I were really lucky on our breeding bird survey. We got up at 4 AM. & then drove to near Trazier, Mo. where we started at 5:19 AM on our B.B.S. During wet weather there are some places on the route that could be impassable. We finished it at 9:32 AM which was a bit over four hours. Although it was heavily overcast & had a ~~fine~~ misty rain a small part of the time it didn't really bother us. But on the way back home, on which we took the same route we had pretty muddy driving at times. We got home about 11:10 AM. Dr. Rositzky came by & picked me up at 1 P.M. & we spent all afternoon hunting then from home to Squaw Creek & back via Honey Creek. I got home at 10 P.M. all birds marked with a V mark plus about all species marked everywhere were seen on our breeding bird survey. We had 52 species on the legal birding bird survey. Ironically we saw ²² ~~2~~ E.B. Bluebirds but ^{only 2} were seen during ~~one~~ of the 50-three minute stops.

Today was clear and warm. The temperature today was low about 69° high about 92°. Jim Fairlie called me this afternoon and told me about the Lark Buntings. Naturally I was excited so this evening I met him at his insurance office in South St. Joseph at 5 P.M. and then followed him on down to a large field about one half mile south of Lake Catron. We saw definitely 4 males and a possible 2 more. We saw two females. One of them was carrying grass in her bill. Jim said that he saw a pair of them actually mating a few days ago. It was just a week ago today that Dave Easterla found a nesting colony near Tarkio, Mo. while making a breeding bird survey. Here are the dates Jim Fairlie gave me. Three males on May 27, 1967; One pair mating on June 2nd, 1967; 10 males & 2 females on June 4th and then two males and one female carrying nesting material on June 9, 1967.

Today was cloudy, damp & chilly all day. Temperatures were low about high about . The Breeding Bird Survey Route designated Bolckow runs from near Bolckow, Mo to a point east & north of Maryville, Mo. It really belongs to Dave Easterla but he couldn't make it this year so he wants me to run it for him. This

afternoon Pearl & I made a trial run of it. From the time we left home till we got back it took us 10 1/2 miles. The BBS route is actually only 2 4 1/2 miles. It is the same as all of them 50 stops, 1/2 mile apart.

Today was a beautiful day. The temperatures were low about 48° high about 76°. Pearl and I run a Breeding Bird Survey this morning for Dave Easterle. It runs from near Bolchaw, Mo. ~~to~~ north east of Maryville, Mo. We got up at 4 A.M. and left home at 4:40 A.M. in order to be at the starting point 30 minutes before sunrise. This afternoon I spent with Si Rositzky and Bob Brown down to Lake Contrary, Honey Creek and Squaw Creek. It was 10:30 A.M. when we finally got home. A long day for me.

Today was clear and nice. The temperatures were low about 60° high about 80°. At 12:30 P.M. Pearl, Marretta Lawhon and I headed for Honey Creek where we set up camp last evening. We plan on staying tonight and most all day tomorrow. The weather forecast calls for heavy thunder showers tonight. I hope not because we have about half a mile of dirt road to go out on and part of it is up hill. Fred, Lois & the two little girls are staying in the big tent, Pearl and I are going to sleep in my little tent that I used in Texas while Larry & Marretta are going to sleep in my wheel truck.

After a nightmare night the day today has been partly cloudy, sultry & warm. Temperatures were low about 68° high about 91°. A bout midnight last night a terrible rain and thunder storm came up. Although it rained all night this morning paper said that we had over 2 inches of rain in 45 minutes. My rain gauge here at home showed 3.25 inches of rain. Pearl & I didn't get my small tent set up properly for that kind of rain and we had water come into our tent from the front. It was enough that our sleeping bags got wet and even the clothes we were wearing got wet. At 6 A.M. a terrible wind storm came through. I still don't know what kept our tents and equipment from being blown away after quite a bit of a clean up job we left for home.

about 9:30am. Pearl and I had only about one to 2 hours sleep at the most. The road out was very muddy and Fred put his jeep in 4-wheel drive and pulled me out through the mud. We spent the rest of the day indoors at home resting and cleaning up.
