

I then ate breakfast and Pearl & I then drove out east of the Wholesale. After lunch Pearl & I drove to Squaw Creek, getting back home at 7 P.M. I made three trips today to Ashland Cemetery to look for the 20 or so Red Crossbills that John Hamilton & Hugh Sprague saw there yesterday but I didn't have any luck. At Squaw Creek today we saw a Mink, and nine deer. Harold Burgess told me that he estimated 5 million seagulls at Squaw Creek late one evening during this past week. Today was cloudy, damp, windy and chilly all day. The temps. today were low about 50° high about 61°.

Monday, September 26, 1966

Except that it was hot & humid around mid day this was more like a March day. Clear part of the time, cloudy part of the time, heavy shower about noon. Balmey PM, turning colder this evening. Low 52° at 8 PM & dropping, high about 84°. This evening as soon as I got off from work at 4 PM Pearl & I headed for Mud Lake to look for the Small Owls that Jim Jaisles reported to me thinking that they were Burrowing Owls. We stayed until dark but didn't see the birds. It was very windy. Maybe that was why.

Saturday, October 15, 1966

25. Chipping Sparrow	12	AC

Today was mostly clear & windy & chilly all day. The temperatures were low about 35° high about 45°. I had planned on birding around the lakes this afternoon but Pearl & Lois has wanted to go out to Ryans Farm between Amazonia & Savannah for quite awhile for Walnuts so at 2 P.M. Pearl, Lois, Pearl's Dad and I went out. We stayed untill about 4:45 and brought home about ~~30~~ 30 bushels of walnuts. Pearl & I then made a quick run down to Mud Lake again in the hopes of seeing Jims Owls but no such luck.

57. Lincoln Sparrow	2		KP
58. Swamp Sparrow	5		LC
59. Song Sparrow	10		KP - LC

Clear & nice. A beautiful day, low about 30° high about 68°. I bided 6:45 am till 9 am. by myself at K.P. I then ate breakfast and then Pearl & I drove around the lakes area southwest of town.

L.C., M.L., M.R., H.L. We got home at 12:30 pm.

About 2 PM Pearl & I drove through Amazonia heights to about halfway between Amazonia & Nodaway, then over through the hills to Savannah & back down and out east of town. This morning Pearl & I saw a snake carrying a small Garter Snake about a foot long. That is the second time we have saw a snake with a small snake. Another thing I saw that made me mad was two hunters leaving the Mud Lake area with what looked like their limit in geese and then Pearl & I saw three dead geese floating in the lake and two more out on the lake that were probably cripples. It seems to me that there are more ducks in the small lakes area than there were this time last year.

Today was clear & warm. The temperatures today were low about 44° high about 78°. I can't help but notice how numerous and friendly the squirrels seem to be in the timber where I take my noonday walk. It is much different from when I was young and hunted squirrels with a gun. Maybe I am more observant now, maybe there are more squirrels or maybe they sense that I mean them no harm and therefore are unafraid. Sometimes I can walk within about 25 feet of one on the ground with it watching me.

Today was clear & cool all day. The temperatures were low about 40° high about 55°. The air had just enough chill to it that it was pleasant walking. Pearl went with me. Saw a ground squirrel on lake road. Water is low in the lakes and entirely missing in most ditches & shallow ponds due to the drought.

This was a nice day for birding. Clear & cool. Low about 28° high about 70°. I started out at K.P. by myself at 6:45 a.m. to 9 a.m. & then drove through R.C. Pearl & I then made the Lakes area & got home at 1:15 p.m. After lunch we drove out the Easton Road about 50 miles and wound up our day about 5:15 p.m. Apparently the hunters have been giving the property owners some trouble around the Mud Lake area. This morning a lady was taking the license numbers of all cars and John Rupp another property owner said that some hunters in their blinds had even been shot at. I made it plain to them what I was doing so now in the future I think that I will not be bothered.

(over)

This was a nice day for birding. Temperatures were low about 38° high about 68°. It was cloudy & real damp early this morning but clear & fair this afternoon. I birded KFD 7am to 9am by myself and then Pearl birded the rest of the day with me. Besides the walking I must have drove about 75 miles. This a.m. we found a woodchuck on the road that had been just freshly killed and this afternoon we found a Garter Snake on the road freshly killed.
