Dear Jack,

I can well understand all the detail that goes into the census project. When you have the data completed, I'll be only too happy to receive it.

Thanks for your count and analysis of the "single over 20 group not in college". Nearly 50% are 60 years of age and over.

I'll be interested in the rest of the data and will piece it together - and then make a detailed analysis and hopefully a projection for the future.

It was good consulting with you recently. Best personal regards. Say "Hello" to Marvin for me.

Sincerely,

Herman B. Levensohn

Dear Herman:

Sorry not to furnish you with the information you want in the time you desire. It seems a great deal more involved than I planned. Have started and am about half way through and it will be a little while yet before we will have complete information.

Attaching a breakdown of the single and over list which total 49. Hope to get you the information before too long.

Personal regards,

Jack M. Zurow
