Today Pearl, Larry and I went with Bert and Viola and spent the day with Viola's sister Mary and her husband Manny Caruthers on their 28 acre farm back in the hills near Parkville, Mo. They have a wonderful habitat for birds as there is a deep woods near by. Bert saw some Bob White that I missed and Pearl saw a Red-headed woodpecker that I missed. I was very much surprised to see the Leconte's Sparrow. We drove through Platte City, Mo. on the way home.

Temperatures were between 0° and 10° above all day and Cloudy. I spent about 2 hours at Krug Park this morning. It was so cold the center focusing mechanism on my binoculars wouldn't work. This afternoon Pearl and I went riding with Bert and Viola on back country roads mostly near the Missouri River between Wathena, Kans. and Atchison, Kans. on the Kansas side of the River. We went through Elwood Kans., Wathena Kans., Doniphan Kans., Atchison Kans., Rushville Mo. and Halls Station, Mo.

~~I~~ I saw today what I would estimate to be about 100,000 Mallard Ducks on the Missouri River from about Edmond Street north for almost a mile. In some places the river and the sand bars were almost black with their numbers. I believe that the cold weather freezing over all the ponds and lakes in this area has driven them to the open water in the Missouri River.
