Today was nice. It was clear & chilly early a.m. but warmed up pretty much later beginning about 10 a.m. Pearl & I drove to Squaw Creek ~~early~~ early this morning & came back home about 1 P.M. we still didn't see some of the birds that we had hoped to see. We then stayed home the rest of the day. The temperatures today were low 52° high 79°.

Today was a beautiful day. Pearl & I left home at 7:45 A.M. We first drove out in the Cook Road area east of town. Next we took Hy 129 to the Honey Creek Wildlife Area. We was there only a short time. From there we went directly to Squaw Creek. We arrived there at 10 A.M. & birded there until 5 P.M. when we left & headed for home. We arrived home at 5:45 P.M. The temperatures today were low 35° high 61°. We had a pretty good frost at home this morning.

Today was cloudy & cool all morning until around noon when it cleared off. This afternoon it was clear & cool but real nice. Temperatures today were low 50° high 65°. I stayed home all day. I spent a good part of the day watching college foot ball and play off base ball on television. I also did quite a bit of reading in a book that Berlin Beck loaned me. It is mostly short stories by Biologists about their experiences with birds and mammals.

Today was cloudy all day and rainy most of the day. Pearl & I birded this morning down around the lake, by Bluff Woods & home. When we got to Bluff Woods we had just started walking the trail and it began raining so we had to head for the car and came on home. It has rained just about continuously ever since. Temperatures today were low 61° high 64°. For about the last week now something has been digging in our yard at night just off of our back porch. There are about 15 to 20 places dug up. Most of them are just small places like where a squirrel digs to bury a walnut, but there are two or three larger places that have been dug up. And what ever was doing it we don't know what for. We do have the large earth worms (night crawlers) and moles. I had been looking out at different times during the night when I would get up. At 12:20 A.M. yesterday morning I looked out the bathroom window and I could see something move in the yard. I woke Pearl and had ~~her~~ turn on the flood light in our back yard. Then I could see it was a Raccoon. Pearl had gone to our bedroom window and said, there are two of them. At that time they leisurely ambled out of the light into our back yard. It was then that we saw there were three of them. All nice big and fat.

Today was partly cloudy & cool but no rain. The temperatures were low 53° high 62°. Pearl & I made the rounds this morning of Bluff Woods and the lakes. We went to Bluff Woods first because they were having dedication ceremonies at Bluff Woods for the Asphalt Trail. It was built mainly for the handicapped people. People in wheel chairs and people who are crippled & need help in getting around. They seem to be happy that I am preparing a bird list of the area. At the present time I have 93 species of birds listed for that immediate area.

Today was partly cloudy & real nice for birding. The temperatures were low 48° high 63°. Pearl & I left home at 8 AM & headed for Squaw Creek. We went directly there with no side stops. We left there at 1:40 PM & got home at 2:30 P.M. Considering the fact that the best road was being graded and it was rather muddy I didn't get to do the birding there that I wanted to. I feel that I would have had white-fronts, Killdeer, Snipe & probably some other ducks & shore birds there & maybe some Gulls or other Grebes.

Today was mostly cloudy, humid and warm. The temperatures were low 54° high 71°. Pearl + I left home about 8 AM + headed for the Pony Express Lake Wildlife Area. We found more water birds there than I expected to find. We got home about noon + stayed home the rest of the day. Late this afternoon the wind switched to the north and has been blowing real hard. The temperature are forecast to drop into the 30's by morning. This evening at 9 P.M I turned

Sunday - October 18, 1981

Today was partly cloudy, windy all day and cold. The

temperatures were low 36° high 52°. Pearl & I took a 16 mile drive this morning out in the Cook Road (o) area + back thru Ashland Cemetery. Stayed home the rest of the day.

Today was cloudy, damp + chilly all day. After break - fast this morning I went to Ashland Cemetery where I took my walk. I then came home and Pearl + I then drove down around the lakes south west of town. We did not go to Bluff Woods but came on back home before noon. We had a fine mist all morning. The temperatures were low 42° high 48°. I then stayed in all afternoon working mostly with some of my birding books + I did watch television only long enough to watch the World Series game.

Today was cloudy, warm and very windy. The Temperatures were low 44° high 68°. Larry, Chad and I left home this morning about 9 AM & drove to the Honey Creek Wildlife area. We drove in to a parking area and spent all of our time there just walking. I really enjoyed it. I saw areas there that I had never been in before. I saw quite a few sparrows but because it was so windy I would just get a glimpse of them in flight and then they would drop into the brush and I wouldn't see them again. We got back home about 1 P.M. where we stay the rest of the day.

Today has been cloudy + damp all rain with light rain + drizzle this afternoon + evening. Pearl + I took our drive this morning down around the lakes + by Bluff Woods. There were other cars at Bluff Woods where we take our walk so we didn't stop. We didn't do much good with waterfowl around the lakes because Duck + Goose hunting season opened today. I stayed home all afternoon working on getting my bird notes up to date. Temperatures today were low 52° high 63°.

Today has been cloudy and rainy all day long. Actually there was a couple of times that the sun came out for a few minutes but after raining most all last night it has rained almost all of today. It was warm however. The temperatures were low 52° high 65°. I had planned on going to Squaw Creek today but I was afraid the roads there would be muddy so I changed my mind this morning and went to the Pony Express Lake Wildlife Area instead. Larry went with me. Larry has spent quite a bit of his time Friday, Thursday and Sunday with us and I know that he has really enjoyed it. I always enjoy getting the first day of each month off to a good start.

Today was mostly cloudy with the sun shining thru sporadically. I just had a feeling that today would be good for birds and it definitely was. Pearl & I made our drive this morning down around the lake & to Bluff Woods. The White-winged Scoter made the day for me. The Piping Plover I have listed today is the same bird I had previously listed as a Semipalmated Plover. Previously I had not gotten as good a look at it and it is an immature bird and the markings were not very clear. I saw it much better this morning and I realized that I was wrong before. I saw Mike Makinsie & told him about the Scoter and the Horned Grebe. Both birds would be lifers for him. He was planning on going to the lake on his lunch hour to look for them. I called Jval Lawhon Jr. at noon & told him. He called me this evening and said that he went down this afternoon & saw the Scoter & got a couple pictures of it. He said the bird was out in the middle of the lake so he doesn't know how good the picture will be. The temperatures today were low 51° high 63°.

Today was mostly clear + cool. The temperatures were low 28° high 60°. Pearl + I left home at 8 a.m. + drove to Squaw Creek. We had planned on going up on Sunday morning but rain is forecast for tonight so we decided to go today because if it rains tonight then the roads could be muddy tomorrow. I am glad now that I did go today because I ran on to Mike McKensie there and I was able to show him a new bird to add to his life list. It was the Long eared Owl. We got home at 2:45 P.M. I wish I could have stayed all day at Squaw Creek but too many people were coming in.

Sunday, November 8, 1981

1	Red tailed hawk	2		0
2	Rock Dove	3		X - 0
3	Common Flicker	6		AC

Today was clear + cool but real nice. The temperatures were low ~~25°~~ 25° ~~low~~ high 58°. Pearl left home this morning at 8:30 a.m. and got back home about 2 p.m. We went to Smithville Lake to see how it is coming along. There is a little more water in it now than there was the last time I was there but most all roads are still blocked off. I could see lots of ducks on the lake at distant points but they were to far away for identification. Today I had two mammals that are not every day sights. I had a Raccoon in our yard just outside our bedroom window at 10 p.m. this evening and today at Smithville Lake I walked under an over head concrete bridge which crossed a section of the lake and there I saw a small brown bat up in one corner that I am sure was hibernating.

Wednesday, November 11, 1981

19	American Goldfinch	3		0
20	Dark eyed Junco	18	X - 0	
21	Tree Sparrow	5		0

Today was mostly clear a.m. + mostly cloudy p.m. The temperatures were low high. Pearl + I took a short ride of about 28 miles this morning n-n.e., in the 102 River + the Platte River bottoms. In a direct line the 102 River is only about 4 1/2 to 5 miles due east of my home and the Platte River is about 7 to 7 1/2 miles due east of my home. Naturally our big surprise was seeing the Pileated Woodpecker. I had a very good look at it in flight with the sun to my back which made the bird really stand out very plain. I then stayed in the rest of the day.

57	Lincoln's Sparrow	2	HC
58	Song Sparrow	1	HC

Today was mostly clear and warm. The temperatures were low 39° high 65°. I have birded all day today. I started out a little before 8 a.m. by making walk of Ashland Cemetery. Then I made a quick run out to where I had the Pileated Woodpecker yesterday. I was hoping to see Ken Jackson or Mike Mc Kensel but I didn't see either one. I hurried home from there and at 9:30 a.m. Steve Crawford came by + picked me up + we headed for Squaw Creek, stopping at Honey Creek Area on our way. We made the complete rounds at Squaw Creek and then at 3 p.m. we met Wiane Watson at Squaw Creek headquarters. We helped her lead a tour of the area for her grade school class and several of their parents. I made Steve hopping by finding the Ross' geese for him as they were lifers for him. We stayed at the Refuge until dark, we got home at 6:30 p.m.
