

Boehringer Ingelheim researchers constantly look for new pharmaceuticals and unique compounds in their state of the art St. Joseph R&D facility.

Boehringer Ingelheim leader in animal health products

Boehringer Ingelheim Vetmedica, Inc., a subsidiary of Boehringer Ingelheim Corporation since 1981, is headquartered in St. Joseph.

From four sites, St. Joseph, Elwood, Kan., Sioux Center and Ames, Iowa, this USA subsidiary acts as a center of competence in biological research, development, and manufacturing for the worldwide animal health business.

The St. Joseph campus includes a state of the art biological manufacturing facility, a world-class research and development complex, and centralized warehousing facilities.

Boehringer Ingelheim Vetmedica, Inc. was once known as Philips Roxane and the Anchor Serum Company. Now, it is the animal

health division of one of America's largest human and health care products companies, and is a leading manufacturer of biological products for the animal health industry.

Innovative, dedicated, research driven and market-oriented Boehringer Ingelheim people accept the challenge of delivering high quality, innovative animal health products to you today and tomorrow, locally, nationally and internationally.

The people of Boehringer Ingelheim Vetmedica, Inc. seek input from customers and commit to continuous

improvement in quality and product performance.

Researchers constantly search for new-generation biologicals, pharmaceuticals, and unique compounds to achieve the commitment made to food animals, companion animals, and horses.

Technical service veterinarians and a veterinarian sale force bring experience, knowledge, and products to veterinarians and other animal health professionals providing care for your pets and production animals.

Boehringer Ingelheim Vetmedica, Inc. with a state-

of-the-art manufacturing facility, a world-class research and development facility, and personnel focused on meeting the needs of cattle producers, swine producers, horse owners, and pet owners, has an extensive line of high quality, innovative biological and pharmaceutical products.

The Boehringer Ingelheim group is one of the world's 20 leading pharmaceutical companies. Headquartered in Ingelheim, Germany, it operates globally with 144 affiliates in 45 countries and nearly 36,000 employees. Since it was founded in 1885, the family-owned company has been committed to researching, developing, manufacturing and marketing novel products of high therapeutic value for human and veterinary medicine.
