COMMENTS:

This image shows a single sheet of white paper with very faint, evenly spaced horizontal lines, characteristic of notebook paper. The lines are light gray or blue and run across the width of the page. There is no handwriting or other markings on the paper. A small dark speck is visible near the top center of the page.

Willow Flycatcher

[illegible]

COMMENTS:

As of 2/18/86 I cannot recall the sighting that is listed here on 9/15/63.
At that time it was listed as Traill's Flycatcher. I should have listed it
at that time as Empidonax. In my daily count book I did not mention any
calls so it could have been any one of 3 or 4 species of Empidonax flycatchers
