Rock Island
Door County , Wisconsin

Dear friend, Mr. Thordarson,

Arthur arrived home with those two beautiful deer and we are holding the buck here until you come through to take them to Chicago. I certainly want to thank you from the bottom of my heart, for being treated so royally those days I spent with you on the island. Sorry that I had to leave before the "big killing" but we had a Real Estate deal here which we just closed up, for a timber tract of 40 acres. This property is only a few miles away from Egg Harbor and we want to use the wood for fuel, which is, as you know, ever so much cleaner than coal.

Again thanking you, I remain,

Very truly yours,

J. F. Bertschinger
