

And for Your Diversion

THE New York Reception Committee is preparing an attractive program of hospitalities for the delegates and their families. Members of the Committee are especially anxious that delegates may be in New York on the evening of Tuesday, May 26 when it is planned to conduct an informal social function at the headquarters hotel (The Commodore), which will be unusually enjoyable and calculated to make for better acquaintance.

For the ladies, social and sightseeing amenities of unique character will be provided.

Hotel Accommodations

ACCOMMODATIONS should be secured in advance. Write the Chairman of the Hotel Committee, George W. Sweeney, Hotel Commodore, New York, stating exactly what you want, what you wish to pay, and when you will arrive, and faithful attention will be given your reservation.

THE National Foreign Trade Council was created in 1914 in order that constant and continuing effort might be devoted to the development of a national policy of foreign trade encouragement. ■ The Council is a national committee for the welfare of overseas commerce, on which its members do not represent their own companies but serve as representatives of the particular class of business with which they are affiliated and of the sections of the country from which they come. ■ The Council is a non-partisan, non-sectional, non-political and non-profitmaking body. ■ Its function is to promote the foreign trade of the entire country.
