Balboa Park,
SAN DIEGO, California.

Dear Sir,

We shall be very pleased to send you photographs as you require and have pictures (colour prints and photographs) of the ships wanted also we can obtain photographs enlargements from any of our Postcards. The price of the postcards are from 3d. each, colour prints 1/-, Cutty Sark 1/6 and enlargements from 1/6. We also can supply Models fully rigged from 25/-. We would suggest that you send us a certain amount of money - say 25 dollars, and we will send you on approval a consignment of photographs, prints etc. and then you could make a selection from these.

We would also suggest that we make up for you a loose leaf album of Postcards of sailing ships. This will be very interesting and we are about the only firm in existence who can carry out a satisfactory work of this kind. We have just been doing similar work for the Liverpool Museum here, who are starting a Shipping Section. We feel sure we can give you some very interesting pictures to add to your collection.

The Northern Publishing Co. Ltd
yours faithfully
