LLOYD'S,

LONDON, E.C.3.

21st July, 1960.

Dear Sir,

In reply to your letter of July 16 concerning the ship "EUTERPE", according to Lloyd's Records this vessel was reported at Trincomalee with masts cut away and would transfer cargo in order to shift port as she could not refit there.

The master stated that his vessel had not received as much damage as he had feared, the hull apparently being undamaged, and that repairs would not have to go beyond replacing her masts.

"EUTERPE" left Trincomalee on March 5, 1866, for Calcutta, where she arrived on March 15, under jury masts, for repairs.

She eventually sailed from Calcutta on July 26 and arrived at Gravesend on November 27. I note that your information states November 29. This may be the date of the Custom House entry.

I trust you will find the foregoing of interest.

Yours faithfully,

F. A. Hawkes

(F. A. Hawkes)
Shipping Editor.
