Dear Sir;

Read with interest your feature story in the San Diego Union
Sunday Feb 20th. "Lighthouse Tender For VIPs".

During 1921-22 I was wireless operator on the Lighthouse tender
KUKUI stationed in Honolulu, T.H., a sister ship of the Sequoia.
I have a photograph of the KUKUI and the two boats are identical.

I have included in my auto biography the story about how the
Kukui went out and found the sailing vessel Annie E after she
had been lost five days and given up by all other available
searchers. Thought you might use it as a sort of followup story.

Also have picture of Kukui hauling a big light bouy aboard the
Kukui. Just a thought.

Very truly yours,

Irvin W Hubbard
