

Sept. 28-64 F120-5

Mr. Mac Mullen

Dear Sir.

An article under your by line, "Keep your egg
Puckin hands of my nest. was sent to me by
Joe Brennan, the former Harbor Commissioner of S. Diego.

The article was of particular interest to me, because
of its accuracy and it was about my father.

My parents lived an interesting and
hazardous life while on the Farallones.

One incident, being a trip to S.F. with my
dying brother in a 14 ft. open row boat,
accompanied by my mother with a 2 month
month old baby in her arms. This took
place Dec. 28-1898.

Because of the stormy weather it was
necessary to lay out side the Golden Gate
over night.

I am interested to know where you obtained
the information for this article and would
appreciate a reply.

I am enclosing a self addressed envelope
for you convenience, it is addressed in care of
my daughter in San Marino, as I had
there and in San Diego during the next weeks.
Sincerely yours
H. S. Beeman
