Jerry MacMullen's latest publication is an absolute must for every Westerner in the San Diego Corral. The title of this book, They Came By Sea, A Pictorial History of San Diego Bay marks it as one of the centennial publications, as indeed it is the first pictorial history of San Diego Bay published for the California centennial. It is a book that over the years will increase in value and continue to offer enjoyment long after the first reading.

Your reviewer has known Jerry MacMullen for many years and can say with some small authority that this book will certainly mark one of the high points in his career as an author. His conviction that the history of the American west be portrayed honestly and with the maximum amount of integrity on the part of the writer, that is humanly possible, is quite evident.

They Came By Sea is a professional work. It is produced by a professional and it reflects the long years of training, education and dedication to research that go hand in hand with
